GUARDS DRIVE SWIMMING RUM RUNNER INTO ONTARIO

AUTO TOURIST TRAVEL SHOWS GREATEST INCREASE ON RECORD

FIVE THOUSAND HOLIDAY CARS IN SIX MONTHS

Figures Released by Customs Department Show Fifty-seven Per Cent Increase in Number of Cars Here and Eighty-seven Per Cent Increase in Number of Passengers From January 1 to June 30; Greatest Annual Increase in History of City.

An increase of fifty-seven per cent in automobile traffic and eighty-seven per cent in passenger traffic to Victoria and Sidney during the first six months of this year, as compared with the same period of 1928, is shown in figures released this morning by the Department of Customs. These figures do not cover cars arriving at other Vancouver Island points.

During the six-month period this year there were 5,097 cars here as compared with 3,241 cars in 1928. There were 13,042 passengers in these cars this year as compared with 6,963 passengers last season.

The report shows the greatest annual increase in motor touring traffic since the department first compiled these figures several years ago. The passengers referred to in the report include only those who travel in their own cars. The figures do not include the thousands who travel with tour cars over steamship and ferry lines. It is figured that, on an average, three persons travel in every car visiting Victoria and Vancouver Island, as compared with two last season and former years.

For the first six months of this year there was an increase of 1,856 cars coming to Victoria over the year before, or 57.3 per cent. Passenger travel in these cars showed an increase of 6,077 persons, or 87.3 per cent. These figures include only those cars and passengers which come into Victoria direct and not from other parts of the island. These tourists came into the city from Edmonton by the City of Victoria, from Port Angeles by the ferry steamer Olympic and over the C.P.R. lines from Seattle and Vancouver direct.

NUMBER KILLED BY BIG STORM IN SOUTH GERMANY

Several Deaths and Heavy Property Losses Also Reported in Austria

Vienna, July 5.—Wind that reached 100 miles an hour in velocity and was accompanied by furious hailstorms, caused twenty-five or more deaths and widespread property damage last night and this morning in Austria, southern Germany, Czechoslovakia and Yugoslavia.

Munich, Germany, July 5.—Reports of deaths and extensive damage caused by a hailstorm which at times reached force last night were arriving today from all parts of southern Germany and adjoining regions in Austria and Czechoslovakia.

At Aldorf, near Nuremberg, two persons were killed and forty injured, while several thousand panes of glass were smashed. Two persons were drowned in Chiemsee Lake.

On the Berlin-to-Munich express seventy-five panes of glass were shattered and thirty-five passengers injured by splinters.

The worst storm in memory was reported to have raged on Lake Constance.

DEATHS IN AUSTRIA
Vienna, July 5.—Several lives were lost and considerable property damage caused in Salzburg and the surrounding districts by a terrific storm which swept Austria last night.

Many peasants' cottages were destroyed and others unroofed. Four persons were killed and several injured by falling trees.

Forest Fire In California Is Checked

Mill Valley, Cal., July 5.—Racing through Cascade Canyon under a fresh north wind, a new outbreak of the \$120,000 Mill Valley fire reached within two miles of this town late last night before its advance was checked by a force of 1,000 men recruited from nearby towns and army reservations. Slumbering embers of Wednesday's fire, which transformed this valley into a blackened ruin of 125 suburban homes, were fanned to life on the crest of Cascade Ridge and the new blaze roared down the slopes toward the town shortly before sunset yesterday.

CREW OF COLOMBO TRAINS AT COMOX

Vancouver, July 5.—The British light cruiser Colombo sailed through the Lions' Gate here at 8.30 a.m. en route to Comox, Vancouver Island, where the crew will spend three weeks at musketry training and other exercises before proceeding south.

From Comox the Colombo will go to Esquimalt and then start the long voyage back to join the West Indies squadron.

Endurance Plane Is Flying Over Cleveland

Cleveland, Ohio, July 5.—The 165-hour mark was passed by the monoplane City of Cleveland on the refueling endurance flight of Byron K. Newcomb and Roy L. Mitchell at 3.39 p.m. today.

This brought them to within 8 hours 31 minutes and 53 seconds of establishing a new record.

SAYS BRITAIN DESIRES TRADE WITH RUSSIA

RT. HON. ARTHUR HENDERSON
Foreign Secretary

SURPRISE FOR BRITAIN IN NEW SOVIET DEBATE

Henderson Tells Commons Diplomatic Relations Were Not Broken Off

London, July 5 (By George Hambleton, Canadian Press Staff Correspondent).—Right Hon. Arthur Henderson, Foreign Secretary, had a surprise for the House of Commons today. The legal experts of the Foreign Office held Great Britain's diplomatic relations with Russia had not been severed at all, he said. Their view was that recognition had never been withdrawn, diplomatic relations had not been broken. What was now sought by the Labor Government was resumption and normal trading and commercial relations.

"If diplomatic relations have not been broken, what has happened?" asked Lieut. Jones, Liberal member for Camborne, Cornwall, in a puzzled tone. Mr. Henderson repeated he was giving the opinion of the legal advisers of the Foreign Office. He promised to consult them further.

All through the debate on foreign affairs today there was a constant insistence on the intention to consult the Dominions both on the signing of the clause of the World Court statutes and on relations with Russia.

On the optional clause, signing of which would compel placing of international legal questions before the court.

RESERVED SEATS SUNDAY IN ABBEY TO BE LIMITED

For King's Thanksgiving Service Nave Will Be Open to Earliest Comers

London, July 5 (By Thomas T. Champion, Canadian Press Staff Correspondent).—While similar services will be held throughout the Empire, Westminster Abbey on Sunday will be the scene of the chief service of thanksgiving for the recovery of King George, who will attend to offer thanks along with the people. Queen Mary and virtually the whole royal family will be present.

RESERVED SEATS LIMITED
As far as is possible, those in charge of the arrangements have striven to eliminate all ostentatious ceremony.

(Continued on Page 14)

PRAIRIE FARMERS HOPING FOR RAIN

Winnipeg, July 5.—Extremely warm weather in the three prairie provinces during the last few days of last week and early this week has caused crops to deteriorate appreciably and most districts are urgently in need of rain, says a crop report of the Canadian Wheat Pool, issued today.

Crops in Alberta, Saskatchewan and Manitoba are not as far advanced or as promising as at this time last year, the report states.

The condition of all crops grows in all three provinces is equally as low as the condition of the wheat crop, being a little higher in some districts and a little lower in others.

Lethbridge, July 5.—Showers fell over a wide area north and east of Lethbridge last evening from Vulcan to Winnipeg and south to the international boundary. Lethbridge, where crops had been in need of rain, recorded half an inch of precipitation.

Plant Growth Exhibited At Sidney Farm

Large Party of Island Horticulturists Visit Experimental Station

Rev. Robert Connell Is Chief Speaker at Outdoor Luncheon

Horticulturists from all over Vancouver Island today visited the Dominion Experimental Farm at Sidney. Well over 200 were in the party which sat down to luncheon at noon and later were shown over the farm by E. M. Straight, the superintendent.

The visit was planned as an opportunity for members of the Vancouver Island Horticultural Association and its affiliated branches to witness various experiments which are being carried out at the farm. Among the organizations represented at the gathering were those of Victoria, North Saanich, Metcheson, Shawnigan, Cowichan, Alberni and Cowichan.

Arriving at the farm at 11.45 a.m., the guests were first entertained at luncheon, served in the shade of the beautiful trees near the farm buildings.

Straight presided over the luncheon and in a few words welcomed the visitors. He outlined work which was being carried on at the station and spoke of various demonstrations prepared for the afternoon.

CONNELL SPEAKS
Rev. Robert Connell, noted Island naturalist, was the chief speaker following luncheon. He took as his subject "Plant Associations" and kept his audience interested with descriptions of plant life and growth.

J. B. Munro, Deputy Minister of Agriculture, attended the gathering on behalf of the Government, and spoke a few words about the keen interest shown in horticulture on the island. After luncheon the whole party moved away on an inspection tour of the station, taking particular note of a number of horticultural novelties in experimental stages.

The new third day's search for the body of Forrest Greathouse, manufactured by the Sidney Roofing and Paper Company, was of considerable interest to the visitors. It has stood up well under various tests and is foreseen as a great boon to horticulturists.

MOUNTAINEERS SEEKING BODY

On Mount Rainier Climbers Search For Remains of Accident Victim

Paradise Inn, Rainier National Park, Wash., July 5.—Reinforced by two veteran mountaineers after yesterday's heroic failure, British Columbia mountaineers were forced to break a fresh trail between openings of new crevasses on Mount Rainier as they began the third day's search for the body of Forrest Greathouse.

Greathouse and Edwin A. Wetzel, Milwaukee tourist, were killed in a fall from a crevasse Tuesday when with four others they made this season's first ascent to the famous peak's summit. The body of Wetzel was recovered Wednesday night.

As the searching party made its long trek, which began at 3.30 a.m., upward and over the rugged slopes of the treacherous mountain, H. B. Cunningham, chief summit guide, watched through a large telescope their lanterns until they disappeared from sight behind Gibraltar Rock.

LITTLE JOE
HE LESS A MAN KNOWS THE SURE HE IS HE KNOWS EVERYTHING.

NORTH FLIERS ARE DELAYED BY WEATHER

Chicago-Berlin Plane Believed at Great Whale, on Hudson Bay, To-day

Await Clearer Day Before Starting on Hop For Greenland

Ottawa, July 5.—The Sikorsky amphibian plane 'untin' Bowler, en route from Chicago to Berlin across the "roof of the world," with three men aboard, is believed to be at Great Whale, on the eastern coast of Hudson Bay, not far from the mouth of James Bay and about 250 miles north of Rupert House, which is on the southern coast of James Bay.

At 9.35 o'clock this morning the Canadian Government wireless operators at Port Burwell, at the eastern entrance of Hudson Strait, reported hearing the radioman in the plane calling. Considerable difficulty was experienced in deciphering the message, but after examining it from all angles, they concluded it was intended to read as follows:

"Landing Great Whale. Weather bad."

Visibility at Cape Hope's Advance, about midway along the southern coast of Hudson Strait, is twenty miles today, while at Port Burwell, at the eastern entrance of the strait, rain and fog prevail.

The wireless men do not expect any further message until sometime tomorrow.

The Government station is broadcasting the weather every other hour for the benefit of the fliers.

Those aboard the plane are Parker D. Cramer, pilot; Bob Guest, co-pilot, and Robert Woods, aviation editor of The Chicago Tribune.

Their next planned hop is to Greenland.

C.P.R. PARTY TO BE VISITORS TO-MORROW

Grant Hall Tells of Canadian Prosperity; D. C. Coleman Travels With Him

Vancouver, July 5.—Grant Hall, first vice-president of the Canadian Pacific Railway, accompanied by D. C. Coleman, vice-president in charge of western lines, and a party of friends, who are visitors in Vancouver today, will spend tomorrow and Sunday at Victoria.

Mr. Hall, who is making his annual inspection of the C.P.R. system, has brought to the coast news of progress and prosperity in all parts of Canada included in his tour.

Referring to the building programmes he had seen everywhere, he spoke of the increasing quantities of British Columbia lumber going to the central provinces. Cedar, fir and western hemlock from British Columbia were becoming increasingly popular as building materials and Mr. Hall said he hoped to see the day when the domestic market for British Columbia lumber would absorb the output of the British Columbia mills.

Regarding the company's timber holdings on Vancouver Island, Mr. Hall said a policy of conservation was being followed there because of the certainty that future years would see a dearth of timber even in British Columbia, unless careful methods of forestry were followed.

(Continued on Page 14)

FRENCH CABINET'S POSITION WEAKENED

Paris, July 5.—The French Cabinet was convoked unexpectedly in special session this morning to consider various attacks of the opposition which have brought the Government perilously close to a crisis.

It is being suggested the Government might extend the system of percentages, which at present is restricted to certain members of the judiciary, but this is not receiving much support and at any rate there is no immediate intention to make any such change in the constitution of the House of Lords.

Wounded Smuggler Escapes After Brush On the Detroit River

Liquor Runner Turns Up in Windsor, and Is Treated at Hospital While His Four Companions, One Shot in Foot, Are Taken in Custody by United States Guards to Detroit.

Japanese Now Held In Seattle Accused Of Writing Many Threats

Seattle, July 5.—Believed to be the author of several hundred threatening letters received by Presidents of the United States, the Emperor of Japan and scores of less prominent men and women in public affairs, U. Uchimiya, a Japanese sought for thirteen years by two governments, is in custody here.

Uchimiya, about sixty years old, claims to be a chemist and speaks excellent English.

Police say the suspect smilingly admitted he had written many letters, but refused to elucidate further.

Windsor, Ont., July 5.—At least one man was wounded and four others were captured by United States coastguard officers in a gun battle off Fighting Island in the Detroit River early today.

Albert Latourneau, thirty-four, of River Rouge, Mich., was admitted to Grace Hospital, Windsor, suffering from a bullet wound in the muscles of his back. He was discharged from that institution after treatment.

Latourneau, who had been shot in the brush with United States preventive officers, escaped by swimming ashore at Fighting Island.

The four arrested and held by the United States officers were Edward Smith, Jack Muller, James Moore and Bert Denta, all of Ecorse, Mich. Denta was wounded in the foot.

DETROIT REPORT
Detroit, Mich., July 5.—Attempting to run the rum blockade on the Detroit River at 1 o'clock this morning, four men were arrested and their liquor laden boat seized after United States coastguards had fired several shots at them. One of the four arrested was shot in a leg. A fifth man, believed to be wounded, escaped by swimming into Canadian waters.

CANADA'S TRADE HAS BIG GAIN IN YEAR

Ottawa, July 5.—Canada's trade jumped \$307,809,699 in the last year. The total for the twelve months ended May 31 was \$2,681,492,305, against \$2,373,682,606 in the preceding similar period. Revised figures were published today by the Dominion bureau of statistics.

Imports in the twelve months totaled \$1,296,738,954, an advance of \$164,419,847. Exports increased \$143,389,852 to a total of \$1,384,758,351.

BODY RECOVERED
Aberdeen, Wash., July 5.—The body of Floyd Lemse, twenty-four, whose aeroplane fell into the sea near Cohlals Beach, Wash., last night was washed ashore two miles south of Cohlals today. The plane also was washed in by the tide.

PEERAGES SOON TO BE CREATED

British Labor Party Needs More Debaters in Nation's Second Chamber

London, July 5 (Canadian Press Cable).—Several new Labor peers are to be named in the near future. The Government party in the House of Lords at present consists of only eleven peers and an addition to their number is considered a parliamentary necessity.

Of the present eleven Labor peers, seven are members of the Government—Lord Sankey, Lord Chancellor; Lord Parmoor, President of the Council; Lord Arnold, Postmaster-General; Lord Passfield, Secretary for the Colonies; Lord Thomson, Air Minister; Lord Russell, Parliamentary Secretary to the Ministry of Transport; and Lord De La Warr, Under-Secretary of the War Office.

The four other Labor peers are Lords Muir-Mackenzie, Oliver, Kimberley and Grell.

DERATE REQUIREMENTS
The task of presenting the Government's views and defending its policies in the upper House against an opposition powerful not only in numbers but in parliamentary skill and administrative experience is obviously beyond the physical resources of a team of eleven, and it is proposed to strengthen Labor's debating group by naming a few new peers.

It is being suggested the Government might extend the system of percentages, which at present is restricted to certain members of the judiciary, but this is not receiving much support and at any rate there is no immediate intention to make any such change in the constitution of the House of Lords.

DEATH TOLL IN U.S. ON HOLIDAY TOTALED 159

Auto Fatalities Topped List; Ten Persons Drowned in Lake Michigan

Chicago, July 5.—The United States surrendered 159 lives to the observance of its 133rd birthday anniversary yesterday.

The Fourth of July death list this year was forty-six under the 1928 total.

The reduction was attributable chiefly to the decrease in the number of deaths from drowning and from the heat. In only one division did the 1929 fatalities exceed last year's and that was in automobile accidents, with seventy this year as compared with fifty-four last year. Fireworks in themselves continued to play a smaller part in the Independence Day death toll. Only seven fatalities from that cause were reported this year as compared with eleven in 1928, and two of them resulted from a fireworks factory explosion and fire July 3.

DROWNINGS DECREASE
Drownings were responsible for the largest loss of life, as they were last year, but even so, there were thirty-five fewer deaths from that cause than a year ago.

Temperatures generally were lower throughout the country than was the case last year, and deaths resulted from heat alone. As far as reports show, there was only one death from heat yesterday.

In New York 500 children were treated at city hospitals for fireworks injuries.

(Continued on Page 14)

Chamberlain Aiding Naval Reduction

London, July 5.—Sir Austen Chamberlain, former Foreign Secretary, speaking in the House of Commons today, said his side of the House earnestly desired the negotiations on naval disarmament in which the Government now was engaged with the United States would come to successful conclusion.

RADIO TELLS MAN IN FAR NORTH SON IS ILL IN OTTAWA

Ottawa, July 5.—A sick child in a hospital here is awaiting for a reply from his father at the lonely Royal Canadian Mounted Police post at Chesterfield Inlet, on the western side of the far northern region of Hudson Bay, to a message broadcast last night over the Canadian National Railways radio chain. The message was to advise Staff Sergeant M. A. Joyce that his fourteen-year-old son, Scott, was seriously ill here and asking him to get in touch with Ottawa by radio if he could reach a sending station.

FORTY-ONE PLANES COMPETE IN CUP RACE AROUND BRITAIN

Hounslow, Eng., July 5.—Forty-one aeroplanes, ranging in size from a tiny Moth to powerful Vickers fighters, started from Heston Air Park this morning on a 589-mile flight, the first part of a two-day handicap race over a total course of 1,169 miles around Britain for a cup given by the King.

The pilots expected to halt at Blackpool to-night and finish at Heston tomorrow. They include some of the best British civil and Air Force fliers, as well as three women, Lady Bailey, Miss W. E. Spenser and Mrs. A. S. Butler, whose husband also is competing.

A. CARMICHAEL INSTALLED AS ROTARY HEAD

Officers of Victoria Rotary Club Vested With Duties at Cabaret Party

One of the most successful parties of the year was held by the Victoria Rotary Club last night at the Empress Hotel, when nearly 150 Rotarians and ladies enjoyed a cabaret banquet and shared in the installation of the new officers by past president, R. W. Mayhew.

Addressing Alfred Carmichael, president-elect, Mr. Mayhew directed his attention to the need of brevity in speeches and the great importance of the duties involved in the highest honor the Rotary Club could bestow. Other officers installed included: D. W. Evans, past president; Rev. M. W. J. Bruce and P. L. Naismith; vice-

LOCAL PAINTER STATES "KEENO" HELPED HEALTH

Endorses Herbel Medicine Secured at Vancouver Drug Co. Stores

CASE NOT UNUSUAL

How effectively "KEENO" relieves the ailments for which it is offered and recommended, is brought out plainly by the statements given by those who use the medicine. "KEENO" is not offered for use in any way other than which it is efficient. You can absolutely depend upon "KEENO" to eliminate any of the common complaints which come when the stomach, liver, bowels and kidneys are not acting normally.

Mr. Proctor Speaks

Mr. C. E. Proctor, 1720 Commercial Drive, has resided in Vancouver for many years. He is a contracting painter. Having used "KEENO," he is well able to pass judgment upon the medicine, and his opinion which follows, will be of interest to hundreds. "During the past three years I have suffered from stomach trouble," said Mr. Proctor. "My appetite was not normal, and I would suffer from indigestion occasionally. I was also troubled with constipation. My nerves were in a weak condition. At times I would have severe headaches. "I have been using 'KEENO' and find this medicine very good. The old ailments are responding to this fine medicine. The stomach trouble is greatly relieved. My appetite is much better and I am not bothered with indigestion. 'KEENO' has relieved the trouble. My nerves are much stronger than they had been. The headaches are gone. "I am very well pleased with the results secured from the use of 'KEENO,' and still use the medicine regularly. I endorse 'KEENO' and recommend its use to everyone who is troubled as I was."

Also Endorses "KEENO"

MR. CHAS. BILLERS

IF? USE? IF?

If your stomach is weak and affected, you have little appetite, your food is not tasty and does not digest properly, you suffer from gas and acid stomach, USE "KEENO."

If your liver is torpid and you suffer from headaches, dizzy spells and spots before the eyes, if your skin is yellow and your complexion sallow, USE "KEENO."

If your bowels are not acting in normal manner and you suffer from constipation, which you surely realize will lead to more serious trouble, USE "KEENO."

If you are troubled with too frequent or burning kidney action, if acids have pervaded the blood system and cause you to suffer the agonies of rheumatic pain, USE "KEENO."

If your nervous system is weak and rundown, you are easily startled and little things cause you to worry and fret—you cannot sleep soundly or restfully, USE "KEENO."

If your blood is impure and blackheads, pimples, boils and other forms of skin eruption are showing, USE "KEENO." This medicine assures a clear, smooth, velvet-like skin.

CALL AT

The Vancouver Drug Co. Ltd. stores in Vancouver and Victoria supply and recommend "KEENO." Leading drug stores in every city, town and village, also distribute this good herbal medicine. Call to-day and have "KEENO" and its uses explained. Secure a supply, use the medicine regularly as directed, and you will be more than pleased with the results.

COW EARNS BOY'S SCHOOLING

Since purchasing his cow, "You'll Do Mon's Mischief," Eugene Thomson has run his original investment of \$125 to about \$1,000 through sale of the cow's progeny and milk. Through receipts received from her products and prizes won by her at fairs, he has been able to finish Decatur, Texas, Baptist College and enter Texas A. and M. College. Thomson is shown at the right and the cow that made his education possible is shown above.

stands at 104. Eleven members were elected while ten dropped out. Of those lost, four left the city and two ceased to represent their classifications. The death of the late James Paterson was recalled with tribute to his memory. The attendance percentage for the year was 80.54, practically the same as in the previous year.

The principal activities undertaken during the past year were a repetition of the Ice Carnival instituted the year before and another Superfluous Sale. These enterprises made a substantial profit, distributed to the Queen Alexandra, Solihull and other worthy causes. Other projects in which the club participated included a successful bridge drive held in co-operation with the Dr. O. M. Jones Chapter, I.O.D.E. in aid of their Milk Fund.

Inter-Service Club Golf Tournaments inaugurated recently attracted a good entry from the Rotary Club.

The programme committee, under T. E. Myers, was thanked for constant attention given its important work. The music committee, more generally known as the Rotary orchestra, had continued to sacrifice convenience and much of the benefits which it might derive from its membership.

to entertain week by week with skill of a very high order.

The directors acknowledged the debt owed to the ladies of Rotary. Their work for community service enterprises was noted in warm terms.

The entertainment last night included dances by Misses Irene and Vera Holmes, Christine Schmeltz and Barbara Allen, pupils of Miss Clough, songs by R. R. Webb, cornet duets by Misses Marjorie and Ruby Hodgkins.

SERVICE CLUBS PRESENT

The installation was attended by officers of the other service clubs of Victoria. The Kunitz Club was represented by Miss Kate McLaren, president and Miss Margaret Clay, vice president; the Kiwanis Club was represented by Donald Macdonald, president, and Mrs. Macdonald; H. B. Dawson, president represented the Gyro Club, being accompanied by Mrs. Dawson; the Kinmen's Club was represented by Robert Wootton, president, and the Knights of the Round Table were represented by J. C. Newmark.

Dancing followed the installation ceremonies.

sufficient to eat, but the bear is a very different matter.

To see this beautiful creature of the wilds penned up in a space that one would not keep a dog in continuously, to see it padding aimlessly round and round, all alone, is enough to make one thoroughly unhappy. Utter loneliness is a dreadful thing. If Ursus could speak, she, viewing the glorious mountains, the shining sea, the happy water fowl, the paradise of parkland, all within sight of her prison, she might say:

"Where every prospect pleases,
And only man is vile!"

And she would be right.

BARBARA STODDART.
1307 Pembroke Street, June 4, 1929.

SWEEPSTAKES

To the Editor—I have read with interest the recent letters on "Sweepstakes." I and lots of other people maintain that the Provincial Government should run sweepstakes. Take so much per cent out of each sweep and

give to hospitals, orphan's homes, unemployment, etc. People will buy sweepstakes tickets any time where there are good prizes. Betting on horses is allowed at the Willows and Vancouver meets. Tag days are allowed. Gambling in oil and mining shares is allowed. Why not sweepstakes? Hundreds of dollars go out of Victoria for various sweeps outside the city. So why not make it lawful? It's a chance a poor person has of making a little stake outside of working hard for a mere living. So let's hope for a chance to make some poor people happy.

E. STEWART.
820 Walker Street, July 3, 1929.

Expenditure for new buildings in 1928 in 310 cities having a population of more than 25,000, was more than three billion dollars.

Improperly prepared and addressed mail causes a loss to the Post Office Department and users of the mails of \$4,000,000 to \$5,000,000 annually.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the writer wishes. The publication or rejection of an article is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the preservation or return to the writers of communications submitted to the Editor.

MAN'S INHUMANITY

To the Editor:—"H.B.W." writing for this paper, has voiced the opinion of hundreds of animal lovers here in Victoria, when he terms the—to use his own words—"sincere" of Ursus Kermodei, the bear at the park, an atrocity. It is.

One feels sorry for the poor little wretched hog, whose only purpose there seems to be to raise a grimace on the faces of people who stop to look at him, but perhaps the little creature gets some satisfaction out of life in having

**Increase Your Weight
5 Pounds 30 Days
Or Money Back**

Real pharmacists and chemists everywhere know that McCoy's Cod Liver Extract Tablets contain just the proven essential ingredients that increase weight, create appetite, build up the power to resist disease and put good solid flesh on skinny men and women.

So now men and women who keep up with the times are taking McCoy's Cod Liver Extract Tablets—rich in health building, strength creating flesh producers and as easy to take as candy.

So why not start to-day? Why not fill out those deep hollows in neck, cheeks and chest? Why go on through life with sunken cheeks and narrow chest when you can take advantage of this straightforward offer.

Try them for thirty days if you want to gain five pounds or more. And bear this in mind, if they don't help you in that time your money will be refunded. 60 Tablets 60 cents—Economy Size \$1.00. At MacFarlane Drug Co., Vancouver Drug Co., Cvi Drug Co. and druggists everywhere. (Adv.)

LATE SULTAN'S HEIRS SUE FOR CROWN JEWELS

Budapest, Hungary, July 5.—Prince Abdul Kadir, son of the late Sultan Abdul Hamid of Turkey, has begun proceedings against President Mustafa Kemal Pasha for the recovery of Turkish crown jewels valued at \$25,000,000.

The prince in his declaration asserts the jewels were confiscated by the Turkish Government after the late Sultan Mohammed VI had fled from Constantinople aboard a British battleship.

Abdul Kadir, who is suing jointly with his brothers as legitimate heirs to the imperial family, explains that unlike the crown jewels of other monarchies, the Turkish gems have been considered the personal assets of the Imperial Ottoman family since the sixteenth century.

Kemal Pasha, the royal plaintiff insists, has no legal right as the representative of the Turkish Government either to offer the jewels for sale or to deprive the sultan's heirs of their property. Diamonds, rubies and emeralds of enormous size presented to Turkey's sultans during the last 500 years by British sovereigns, by Russian czars, Indian potentates, French kings, Japanese mikados and Chinese emperors, are included in the costly collection.

It is thought that the Mississippi Valley was once a great interior sea.

Ontario Plans To Sell More Fruit In Great Britain

Toronto, July 5.—Appointment of Andrew Fulton of Ottawa, head of the market division of the fruit branch of the Federal Department of Agriculture, to be commercial fruit representative for the Ontario Government at London, Eng., was announced here last night by Premier G. H. Ferguson, who stated the appointment was the opening shot in an aggressive campaign to make Ontario fruit a dominating factor on the British and European markets.

SALARIES TOPIC OF DEBATE FOR BRITISH M.P.'S

London, July 5.—The question of salaries has begun to worry Great Britain's new Labor parliamentarians and as a result of discussion on the matter the country at large is awakening to the fact its government heretofore has been in the hands of wealthy men.

Premier Ramsay MacDonald announced yesterday in the Commons he had increased the salary of Rt. Hon. J. H. Thomas, Lord Privy Seal, from the £2,000 he was drawing in that post to £2,500 because of extra duties, undertaken as Minister in charge of unemployment.

There has been some discussion of the smallness of the salaries of the Prime Minister and the Chancellor of the Exchequer, which are only £5,000 each, barely enough to keep up the official residences on Downing Street. This was a matter of little concern when the office holders were wealthy men, but the situation is far different in the Labor regime.

PAYS POCKET EXPENSES
Until Laborites began to appear in Parliament members of the Commons were not paid at all. A salary of £400 annually was instituted for members. That sum was adequate before the war, but to-day is sufficient only to pay pocket expenses of the ordinary M.P.

NEW PEERS
The question has entered also into the matter of increased Labor representation in the House of Lords. Responsible journals not adhering to Labor principles suggested a reform be instituted, making it possible for Premier MacDonald to create life peerages only to increase the party's representation there.

This would prevent saddling of the heirs of the newly created peers with difficulties in maintaining their position without adequate means. There are at present only eleven Labor peers.

Barrister Traveling To Arctic Falls III

Edmonton, July 5.—Seized with a severe attack of pneumonia while en route to Alaska to act as defence counsel in criminal charges to be heard there against Eskimos, Ex-Mayor J. A. Clarke of Edmonton was taken off the steamer at Fort Smith, according to reports received in this city. He is being given medical attention and is unable to continue the trip to the Arctic.

A recommendation that another barrister be sent north by aeroplane to act as counsel in place of Mr. Clarke has been sent to Ottawa.

Subjects For Debate In British Commons Are Increasing

London, July 5.—Further amendments to the Address in Reply to the Speech from the Throne have been tabled in the Commons by Liberals and Conservatives.

A Liberal amendment listed yesterday by Ernest Brown, Leith, and others, regrets the absence from the Speech "of any reference to measures designed to insure transfer of the burden of the care of able-bodied unemployed from the local authorities to the national exchequer and the consequent removal from the unemployed of the stigma of pauperism."

Another Liberal amendment submitted by Rev. R. M. Kedward, Ashford, Kent, and others, expresses regret the Speech "contained no definite proposals for restoring the basic industry of agriculture to a more prosperous condition and no reference to the calling of a conference of representatives of the three parties to ascertain what action can be taken to relieve the serious depression of this industry."

A Conservative amendment offered by Capt. R. C. Bourne, Oxford, and others, expresses regret the Speech did not mention that "any action is proposed to be taken by the Government for supplying the British forces serving at the naval and military home stations with meat and flour of British origin."

BEQUESTS TO RUN FOR LONG PERIOD

Indianapolis, Ind., July 5.—Public bequests of approximately \$160,000,000 to be available in 2129 were made in a will filed for probate here which provides for \$50,000,000 to be kept intact for 200 years at compound interest.

The will was that of Will H. Latta, Indianapolis Street Railway Company attorney, who was killed recently when an automobile he was driving was struck by a passenger train. At the time he was en route to Fort Wayne where he was to marry Miss Emma Margaret Sander.

Miss Sander was given one-fourth of the remainder of the estate after the public bequests.

Among the bequests to be available in 2129 are: approximately \$5,000,000 to establish the "Carrie Hunt Latta Memorial Library" in Indianapolis in memory of his wife; \$35,000,000 to establish an Indianapolis conservatory of music; endowment of \$35,000,000 for the Art Association of Indianapolis; \$17,500,000 to build community centres adjoining each grade school building in Indianapolis; endowment of \$17,500,000 for De Pauw University; about \$47,000,000 to establish and endow "Latta University" at Ligonier, the institution to be operated by the Methodist Episcopal Church.

NEW MARK SET BY U.S. DIVERS

Washington, July 5.—A new mark for divers has been established here by two navy torpede men who, equipped with only mechanical "lungs" to permit breathing under water, withstood a pressure of 155 pounds in a specially constructed diving tank.

This pressure is equivalent to a depth of 353 feet, which compares with the mark of 306 feet reached in actual diving by navy men in helmets and diving suits in 1915 while salvaging the United States submarine F-4 off Honolulu.

Chief torpedoman Kolinsky and Rev. who underwent the latest tests offered no ill effects. The "thing" is the navy's new submarine escape device.

Nineteen Are Killed In Train Wreck

Warsaw, Poland, July 5.—Thirty-five persons were injured, nineteen fatally, at Plazow Station, near Cracow, in a railroad wreck Wednesday night. A locomotive collided with a passenger train standing at the station.

BRITISH LEAGUE DELEGATES NAMED

London, July 5.—Premier MacDonald, and Viscount Cecil will be two of the members of Great Britain's delegation to the forthcoming sessions of the League of Nations Assembly.

Cheers from the Labor benches greeted the announcement in the House of Commons yesterday afternoon of an appointment of Viscount Cecil again to represent this country at the sessions of the Preparatory Disarmament Commission of the League and to attend the Assembly.

The League Assembly delegation also will include the following: Rt. Hon. Arthur Henderson, Secretary for Foreign Affairs; Rt. Hon. William Graham, President of the Board of Trade; Mrs. M. A. Hamilton, Labor M.P. for Blackburn; Mary Swanswick, speaker, lecturer and publicist.

Viscount Cecil has had long experience at Geneva as British spokesman. He resigned from the disarmament delegation of the British Government shortly after the collapse of the tripartite naval conference at Geneva in 1927.

A protest was raised from the Conservative benches after Mr. Henderson had announced the delegation. The Conservative members said it was the first occasion when, with the "doubtful exception of Viscount Cecil," the British representation was entirely made up of representatives of one party.

Mr. Henderson stated in reply that by the inclusion of Viscount Cecil he had fulfilled the undertaking to follow the precedent set in 1924, when the delegation was not strictly on a party basis.

VANCOUVER ISLAND NEWS

Duncan

Mrs. Chow, diocesan junior secretary of the W.A., opened an enjoyable fête at the home of Mr. and Mrs. G. A. Tisdale, "The Grange," Somenos, and at the conclusion was presented with a bouquet by Helen Tisdale. Sports prize winners were: ladies' race, Mrs. J. H. Thomson; high jump, girls, H. Tisdale; high jump, boys, E. Lee; potato race, H. Tisdale; Leslie Thompson had charge of "Aunt Sally," and Muriel Willis of the clock golf; work stall, Marjorie Willis and Ida Sharples; ice cream, Betty Goddard; bran tub, Helen Tisdale; Tea, Dorothy McKinnon, assisted by Mrs. Goddard, Mrs. A. S. Thompson and Mrs. J. Lownd.

A Day has returned to the Peace River district after spending a month at his home in Duncan.

Miss Rosalind Kingscott has returned to her home at Sooke after a visit to Miss Dorothy Green, Duncan.

Miss Violet Kinscote of Vancouver was a guest at Maple Bay for the week-end.

Families which have moved from Duncan to Maple Bay for the summer months include Mr. and Mrs. W. P. Purdy, Mr. and Mrs. D. Dove, Mr. and Mrs. Oldfield, Mr. and Mrs. Purvey, Mr. and Mrs. H. B. Hayward, Mr. and Mrs. R. W. Whitmore, and Mrs. and Miss Griffith.

Miss Betty Baptie of Victoria is the house guest of Dr. and Mrs. H. P. Swan. Mrs. Eunice Chaplin came up from Victoria to spend the week with her parents at Somenos.

Mrs. Beverley Brien, who has been teaching near Cowichan Lake, is home in Duncan for the summer holidays.

Mrs. J. C. O. Victoria has been visiting her sister, Mrs. W. E. Christman.

Ladysmith

Mr. and Mrs. T. Allan and children have returned to Victoria after spending the holiday here with relatives.

Mr. and Mrs. J. Herlinvieux and children of Cowichan Lake are spending a holiday here with relatives.

Miss Thelma Gregson and her sister, Miss Elsie Gregson of Victoria are spending a holiday in Seattle.

Mrs. J. C. O. Victoria has been visiting her sister, Mrs. W. E. Christman.

Mrs. E. Etheridge of Victoria is the guest of her son-in-law and daughter, Mr. and Mrs. E. D. Comley.

A Johnson left Wednesday for his home in St. Paul, Minnesota, after spending a few days as the guest of Mr. and Mrs. J. Hawthorn.

Mrs. J. E. Davis and children of Bend, Oregon, are spending a holiday as guests of Mr. and Mrs. J. E. Davis, St.

Mrs. Seggie of Vancouver is visiting her sister, Mrs. J. Ford. Mr. Seggie spent the week-end holiday here.

Misses Jessie and Mary Coupland of Somenos spent a few days here this week.

Mrs. D. Evers of Nanaimo visited friends here this week.

W. Gibbons of Victoria spent the week-end here with friends in Ladysmith.

Mrs. F. Clarke of New Westminster is visiting her parents, Mr. and Mrs. G. Timothy.

Miss Mary Lamonte is spending the summer holidays with her parents in Vancouver.

Miss Sarah McNeil has returned home from Allenby.

The funeral of the late Felix Dumont, who died from injuries sustained in the Lantzville mines, was held Tuesday afternoon from the family residence to Ladysmith cemetery. Services were conducted by Rev. Balfour Bruce and were under the auspices of the Knights of Pythias. The lodge ritual was conducted by James Patterson. Pallbearers were: A. Robertson, D. Davidson, D. Gourlay, P. Metral, M. Kerr and D. DeFrance. Many beautiful floral tributes were received.

There are 15,925,950 Roman Catholics in the British Empire and 29,273,022 in American possessions—a total of over 45,000,000 in English-speaking countries.

ONLY IN THEORY

HON. R. B. BENNETT'S CONCEPTION of inter-Empire trade is something like a Chinese puzzle that would bewilder the Chinese themselves. He says he wants Imperial trade; but he wants Canada to do practically all the selling and practically no buying. There must be much less butter from New Zealand, a far smaller volume of textiles from Great Britain. It is true that he does not object to the admission of ostrich feathers from South Africa, because we do not grow any and are using less from year to year. And we have not noticed so far that he has been grumbling about the \$2,000,000 worth of sausage casing which New Zealand sold to us in 1928. But when it comes to butter and textiles, the opposition leader would fight for their exclusion.

The present Government is out and out for practical inter-Empire trade. Mr. Bennett is strong for it only in theory. What did he say at Oakville and Port Credit the other day? "I am told that New Zealand is part of the British Empire and I should not complain about its butter coming to Canada. What is the difference? It is destroying Canadian industry." There you are. What are the facts? For every dollar's worth of goods we sell to New Zealand, we buy fifty cents' worth in return—a two-to-one balance in our favor. Nor does Mr. Bennett tell his audiences that we sell six times as much, to Australia as we buy from her.

Mr. Bennett knows quite well that the Canadian dairy industry is not being destroyed, that production has fallen off in the last two years because former producers of dairy products have found it more profitable to grow grain. We either had to import butter from other countries—and we imported it from within the Empire—or go short. The Canadian people are prosperous enough to buy all the butter they want. As a matter of fact, we lead the world in per capita consumption. And if we did buy six million dollars' worth of butter from the Antipodes, we sold to those two countries nearly eight million dollars' worth of automobiles and motor trucks. Surely Mr. Bennett ought to be fair enough to admit that business is business.

The subject of textiles is interesting. At Mr. Bennett's meeting at Dunnville, Mr. Mark Senn, M.P., is reported as saying that "last year we imported \$53,000,000 in woollens from the United States." This item, to be precise, covers our imports of woollens and raw wool from the whole world; \$40,500,000 from the United Kingdom, and only \$3,500,000 from the United States. Of the United States total, moreover, \$1,500,000 was raw wool. What Mr. Bennett asks to cure this situation—which he is trying to persuade the public is a serious situation—is more protection. But he does not tell his audiences that the duties on manufactured woollens range from twenty-five to thirty-five per cent. And the heaviest importation is from Great Britain, a part of the Empire with which Mr. Bennett would do more business.

When Mr. Bennett preaches Empire trade as if it was something new that only he had thought about—instead of a fixed Liberal policy which was based on the British Preference as far back as 1897—it should be remembered that the party of which he is the leader fought the Imperial Preference, the Canadian-Australian treaty and the Canadian-British West Indies treaty—all designed to foster trade between these parts of the Empire.

TOO COSTLY

IF THE WORLD IS NOT YET READY to accept the principle that war is morally wrong or that it is unavoidable, the amount which has to be paid in taxation for past wars and in preparation against the fear of new ones should have a sobering influence.

It is not necessary to set out the cost to the various countries of the last great war to arrive at an appreciation of the amount of material treasure that was dissipated between 1914 and 1918. But we get some idea of what it cost Canada when we remember that for every dollar the Dominion Government collects for carrying on the business of the country, it is obliged to pay out something like forty-two cents as Canada's share of the Great War bill. Put it another way: Our annual fixed charges under this heading amount to more than half the size of the national debt of 1914.

We get some idea of what the taxpayer in Great Britain has to find each year from an examination of just one item, that of war pensions. A recent statement in the House of Commons showed that since the end of hostilities in 1918 the sum paid out under this heading alone is more than \$1,000,000,000 in excess of the country's national debt of 1914. The item is \$4,565,000,000. Incidentally, this is \$65,000,000 more than the amount which France and Germany combined have paid out in pensions in the same period.

So it will be seen that when we scoff at peace overtures and disarmament proposals we are merely saying to ourselves that we are quite prepared to run the risk of incurring more of the liabilities to which we have referred here.

THE POWER OF BUSINESS

A FRENCH DRUGGIST WHO OPERATES a little store in the Algerian town of Biskra, on the edge of the Sahara Desert, is doing one of the most effective bits of missionary work in the world, according to a monthly magazine.

The magazine explains that rather surprising statement in this way:

"The druggist's customers are almost without exception desert folk—wandering Arab tribesmen, Mos-

lems to a man, brought up in a society where ignorant priests try to cure diseases by incantations and mystic rites.

These people, seeing the things that the drug store's products will do, are rapidly being weaned away from their superstition. They are learning that modern medicine can heal a sore throat better than the mumbo-jumbo mutterings of a sorcerer, and that a scorpion's bite is better treated with a scalpel and disinfectant than with the wand-waving incantations of a direct descendant of Allah's prophet.

This druggist, accordingly, whose sole purpose in locating in Biskra is to make money, is actually pushing back the shadows of darkness from an ancient section of the earth and helping mightily in the never-ending war on superstition.

Our modern world is pretty well commercialized; and this commercialization is carrying everything before it. Old superstitions, old customs, old ways of living and old ways of thought—all are falling, faster and faster, before the advance of the merchant and the manufacturer.

Western exporters are laying vast plans for "cultivating the Chinese market," as they put it. They know that China is, potentially, a very rich land that could buy huge quantities of goods. But before they can sell to China, they must help China to get on her feet.

So loans are being made available to China. Railroads are being laid down, good roads are being built, government officials are being helped to provide better housing conditions, farmers are being shown how to get the most out of their land.

The business men who are doing these things do not care especially about the well-being of the Chinese. They simply want a better market for their goods. But the upshot will be that China will be a better place to live in. It will have less misery, less poverty, less stagnation. In a few decades it will advance farther than it has in many centuries.

THEY SHOULD BE DEPORTED

IT IS APPARENT THAT THE UNRULY section of the Doukhobor community of this Province is composed of only a small number; but the few seem to be able to burn schools and evade capture. Does not this suggest that if they are not aided and abetted in their nefarious work by the supposedly law-abiding members of the sect, they are at least protected by them?

On one or two occasions within the last few months those Doukhobors who style themselves the Sons of Freedom have made themselves objectionable in the city of Nelson. Their demonstrations have implied direct defiance of the law, even though there may not have been any violent manifestation against the peace. There is no room in British Columbia for these fanatics and the Government should take the necessary steps to get rid of them. There is no special comfort for the taxpayer in the knowledge that the schoolhouses recently destroyed are partially covered by insurance, and that such other money as may be required to make up the balance will be collected from the Doukhobor community's funds.

Obviously it is the Government's duty to find the culprits and have them deported. People who are not willing to obey our laws should be given short shrift. But each time a Doukhobor "demonstration" is tolerated without some form of punishment, the offenders interpret official inaction as weakness. More schools no doubt will go up in smoke unless the Government shall take a much stronger stand than it appears to be taking.

A NEW ICE AGE

IN CASE YOU HAVE NOTHING ELSE TO worry about, you can give a thought to some recent remarks by Donald MacMillan, arctic explorer, who suggests that the northern hemisphere may be right on the edge of a new ice age.

The ice ages of the past have sent solid sheets of ice down from the polar regions to blanket the land nearly as far south as Oregon. A repetition of this, obviously, would upset things considerably. MacMillan says that Eskimos in the northland have told him that huge glaciers now cover valleys where, a few years ago, there were trees and flowers. Measurements, he says, have shown that some glaciers are moving south at a speed of fifty feet a year—express train speed for a glacier.

WHAT OTHER PAPERS SAY

The woman, question for centuries has been "What did she have on?"—Chicago Daily News.

When carefully analyzed, luck proves to be one part chance, three parts industry, and six parts brass.—Kingston Whig-Standard.

"Shoes can give a girl a great deal of trouble," says a woman's paper.—Especially when they're on the feet of her dancing partner.—Montreal Star.

The average man is so optimistic that he actually laughs at trouble, except, of course, when the trouble is his own.—Kingston Whig-Standard.

Poison gas has been ruled out of civilized warfare—until such time as a war begins, when it will be seen that warfare being itself uncivilized and lawless nothing can be ruled out that facilitates slaughter. The thing to rule out is war.—Toronto Star.

PRESIDENT AND PRIME MINISTER

The Philadelphia Ledger

In the United States there has been no disposition to question the importance or the propriety of the meeting between President and Prime Minister, though a few years ago a furor of suspicion would have been aroused by any proposal of the head of a British Government to establish direct personal contact with President Harding or President Coolidge. The gentlemen who like to ask rhetorically, "What have we to do with abroad?" will doubtless shortly be heard from. But they are likely to find that their rhetoric is much less powerful than it was before the present fortunate conjunction of men and circumstances.

A THOUGHT

For all our days are passed away in thy wrath: we spend our years as a tale that is told.—Psalms ix 9.
My notions about life are much the same as they are about travelling: there is a good deal of amusement on the road, but after all, one wants to be at rest.—Southery.

Loose Ends

Mr. Ford tells how to cure Europe with more Fords—while latest figures show how we have been cured already—Mr. Capone slides with show and shine—Shakespeare makes a handsome donation—New York offers our City Council the chance of a lifetime.
By H. B. W.

MR. HENRY FORD has just returned to America from Europe, and with that serene confidence of his, he has diagnosed all Europe's ills, and prescribed a remedy. His remedy, as you would expect, is more Fords. To give Europe more Fords, Mr. Ford has opened a plant in Cork, Ireland, to produce 200 tractors a day and is even shipping tractors from there to the United States. At Manchester his factory turns out 150 cars and trucks daily. At Dagenham, near London, he is completing a larger plant with a capacity of 200,000 cars a year. Other factories are to be built in Europe and America in far-off Constantinople. Entirely one in his sympathies, Mr. Ford also is helping Russia to start two automobile factories of its own, to turn out some 2,000 cars a month, for, according to Mr. Ford, Russia needs more cars than America itself.

THESE ARE the older nations to be Fordized. Their civilization is to be put on the American plan, by which workmen are paid high wages so that they will buy more automobiles and enable automobile manufacturers to pay more wages, so that they may buy still more automobiles, and so on in an ascending spiral of happiness and prosperity. Mass production methods are to be introduced, and workmen are to be taught that instead of their old way they must spend their lives in an efficient, modern factory, screwing on nut number 314 and doing nothing else.

IN THE hands of a genius like Mr. Ford, such a system can be made to produce amazing wealth, but that it will bring the ultimate happiness to Europe is a proposition more difficult to prove. It would be necessary to prove first that the prosperous workmen of America, screwing on nut number 314 all day and every day, even with their leisure and money for the movies in the evening, are happier than the poorer workmen of Europe. It would be necessary, indeed, to prove that we are happier than our ancestors just because we are more comfortable. It doesn't matter much, however, for this age, guided by Mr. Ford, is evidently determined anyway to seek salvation in the flivver.

IF IN this flivver era the stop-and-go signs at busy corners cause you to place all feet at once on all the pedals and other working parts of your car, you are one of those people who should live in Spitzbergen or Bermuda. There is only one automobile in Spitzbergen and two trucks in Bermuda. The next most fortunate place in the world is the Solomon Islands, where there are two passenger cars and five trucks. Altogether, the world has 32,028,584 motor vehicles, and 24,629,921 of them were in the United States when last counted. England had only 1,128,200. France, 1,098,000 and Canada was fourth with 1,061,830 which, considering our population and youth, is the most remarkable fact of all.

THE UNITED STATES has reached a pinnacle of progress that it provides a car for every 5.6 people, while British Columbia, most motorized of Canadian provinces, also will do within a year or so. The rumble seat, no doubt, was invented to carry the six-tenths of the population which can't squeeze into the other seats. The trouble is that the rumble seat is always required to accommodate a larger fraction.

WHILE WE thus have more cars on this continent than anywhere else, we are far behind Europe in the peculiar pleasures of motor cycling. Of a world figure of 2,262,932 motorcycles, less than 200,000 operate on the roads of North America, so that despite our one car for 5.6 people we may still claim to be more civilized than the older nations. If cylinders are any index of progress, the motor manufacturers seem to think we are going ahead at a most gratifying rate. Last year only ten per cent of all passenger car engines in America were eight-cylinders. Now forty-one per cent of all cars being turned out have the extra two cylinders. Shortly six cylinders will be the mark of the very poor. There is no line to our intellectual growth on this side of the water.

OUR neighbor to the south of us, indeed, has advanced so rapidly in the automotive age that culture has reached into the most gloomy parts of Chicago's underworld. For it Charles B. Cochrane, famous London theatrical producer has just made known that he once asked Alphonse (Scafface) Al Capone, Chicago's greatest gang leader, if he were going to see a certain girl-and-music show; and Mr. Capone replied stiffly that he never went to girls-and-music shows. His favorite dramatist, said Mr. Capone, were George Bernard Shaw, Noel Coward and Shakespeare. What is history going to say about a civilization whose most notorious outlaw has literary tastes far above those of most respectable citizens? Anyway, Mr. Capone will be able to read Shakespeare, Coward and Shaw to his heart's content in his cell in the Philadelphia jail, where he was placed for carrying a gun. He seems to keep up his spirits on this literary fare, for when a Philadelphia child-dren's hospital asked him for a contribution of \$100, he refused to give a cent unless the institution would accept \$1,000. Mr. Capone said he had children of his own. The \$1,000 was accepted and no one asked this Robin Hood of the pavements how he had earned it.

AT LAST the City Council's chance has come. Having founded a zoological garden with the incarceration of a notable white bear, it may now purchase other animals in job

KIRK'S WELLINGTON COAL

"Does Last Longer"

lots at bargain prices. The Central Park manager, in New York, will immediately sell to the highest bidder one camel, fifteen months old, which would look unusual among the broom; one hyena, nine years old, but still able to laugh heartily at tourists; one red deer doe, seven years old, well preserved; one lioness, ten years old, and hasn't scratched yet; two lion cubs, fifteen months old and already learning to walk; one zebu, nine years old and a bit shaky; and a miscellaneous collection of goats, some what shop-worn. Add these to our white bear, our buffaloes, our three aged peacocks and our six fat guinea pigs and we shall have a zoo which will make even New York envious. Better still, as all the New York animals are bachelors or spinsters, like Miss Kermode, there is no danger of the zoo growing too large to feed.

The Weather

Daily Bulletin Furnished by the Victoria Meteorological Department

Victoria, July 5.—5 a.m.—The barometer remains high on the coast and fine, hot weather is reported in Oregon and California. Showers have occurred in Southern Alberta and Manitoba.

Reports

Blaze On Tugboat Burns Fireman And Damages Structure

Vancouver, July 5.—When a can of gasoline exploded in his hands, Alec McLeod, fireman on board the tug Ivanhoe, suffered serious burns about the face, hands and body, and the engine room, deck and upper structure of the vessel were badly damaged in the fire that followed. The blaze started at midnight Thursday and firemen battled over an hour before it was subdued.

TWENTY-FIVE YEARS AGO TO-DAY

The Victoria Daily Times, July 5, 1904

Indignation runs high in Victoria and in Port Angeles over the methods pursued by the Collector of Customs at the latter port in fining the steamer City of Nanaimo. There is no comment on the question of imposing a penalty on the steamer for violating the law, if she had willfully done so, but the circumstances of the case appear to be altogether in the ship's favor.

Weather Forecast—Victoria and Vicinity—Light winds, fair and warm to-day and Wednesday.

Ex-Aid. James S. Yates, in a letter to the city council, makes certain charges against the contractor of the Carnegie Library building, which a special committee will investigate.

A consignment of 1,000 barrels of Portland cement for use on the streets of Victoria was received from Seattle on the steamer Oscar this morning.

A. E. Wood, vice-president of the Victoria Terminal Railway Company, was in the city yesterday for the purpose of applying to the council for the payment of \$15,000, the first year's bonus claimed by the company under the terms of the contract.

At the Calendon grounds this evening there will be a lacrosse match played between teams representing the Melrose Company and the West-side and Hinton Electric Company, combined.

The hotel by-law will be submitted to the ratepayers on Thursday, and it is hoped that a large vote will be polled. Its passage seems assured, and it is desired that the majority be as sweeping as when the first by-law relating to the hotel was submitted.

COMMANDER APPOINTED

Ottawa, July 5.—Lieut.-Col. T. J. Williams, M.C., has been appointed to command the 19th Field Brigade, Canadian Artillery, with regimental quarters at Calgary, vice Lieut.-Col. A. M. Nasmith, M.C., who has been transferred to and appointed to command the 19th (Reserve) Field Brigade, Lieut.-Col. Williams served with the Royal Field Artillery in Egypt from November, 1913, to June, 1916, and in France and Belgium from July, 1916, to November, 1918.

HENRY LEVY
CAME TO CITY
70 YEARS AGO

Death Terminates Picturesque Career of One of Victoria's Oldest Residents

Was First White Child Born in New Zealand and Had Traveled World

Another link with Victoria's early colonial days was severed yesterday afternoon when Henry Emanuel Levy passed away in the Royal Jubilee Hospital at the ripe age of eighty-six years.

Apart from his association with pioneering days here, Mr. Levy was associated with the early development

days of the State of Washington, having been engaged in business in Seattle when that city was struggling on the up-grade.

Mr. Levy was the first white child born in New Zealand in 1843, his parents having migrated there in 1839.

IN THE GOLD RUSH

In 1848 Benjamin and Esther Levy, Henry's father and mother, were attracted to California by the gold rush. After residing for some time in San Francisco the Levy family sailed for England and crossed the Isthmus of Panama.

Satisfying his restless spirit, Benjamin Levy proceeded again to California after spending a year and a half in England, but died while on the voyage. Mrs. Levy then returned to England with her family. By that time Henry Levy had crossed the Isthmus of Panama on three occasions. Answering the call of the west in 1869, the youthful Henry Levy, who had been working at the shoemaking trade in New York, again crossed the Isthmus of Panama, this time by rail. He was unsuccessful in obtaining work in San Francisco and came on to Victoria. Seventy years ago Victoria was in the first stages of its development.

SERVED ON POLICE FORCE

It was not long before Henry Levy secured a job on the police force under

A. F. Pemberton. He was the last survivor of the twelve men who then formed the police force. As a policeman Mr. Levy had lots of trouble with the Indians, who then greatly outnumbered the whites here.

Jealousies broke out in the force and compelled the resignation of the budding constable, who secured a job next with the waterfront watchman, where he continued until the Leech River gold excitement. There he was one of the many Victoria citizens to seek gold in the camp. Like many others, he did not find the panning of dirt reach expectations, and back to Victoria he came to resume his work as a watchman. In 1866 he began his long association with the catering business when he acquired the Arcade oyster saloon on Government Street. Here he was joined by his brother Joseph from the Cariboo, and for forty-nine years members of the family carried on the restaurant business here. Mr. Levy retired from its management in 1907 and the family finally terminated their connection with it in 1912.

ROLE OF FIREMAN

In 1863 Mr. Levy began his association with the Victoria fire department, joining the Tiger Engine Company No. 2.

Leaving his brother in charge of the restaurant, Mr. Levy went to Seattle

PIONEER PASSES

HENRY EMANUEL LEVY

picturesque Victoria pioneer of seventy years ago, whose career was terminated by death yesterday at the age of eighty-six years.

In 1870, and started a soda water factory and bottling works. Then he interested himself successively in salting of salmon, and hop growing, and this brought him back to the island. He collected Indian hop-pickers, thus originating an occupation which has continued seasonally to the present time.

In 1881 he packed fish, but lost a pack by the ship's crew encountering fever. He next took over a saltery at Point Roberts, and made a success of it.

During his residence in Seattle he held property which has since developed into very valuable holdings of downtown real estate. He passed through the usual experiences of the anti-Chinese feeling which spread to every coast city in the eighties, and of the great Seattle fire of 1889, in which nearly 100 acres of business property was destroyed. On a stock of \$75,000 value, only \$10,000 in insurance was carried, so again Mr. Levy's loss was great in the burning of his store.

INVESTED HERE

So he decided to return here, and occupied himself in building houses, having at one time fifty-two houses and several undeveloped lots. Ultimately, as the years came upon him, Mr. Levy sold his holdings and reinvested his money in less burdensome obligations.

Mr. Levy was a charter member of Columbia Lodge No. 2, I.O.O.F., having resigned from No. 1, together with six other members, to aid in forming this lodge. He was also a member of the Encampment and the Rebekah degree.

The members of the family are the wife, two sons, Arthur and Victor Levy, residents of Victoria; a brother, Joseph Levy, resident in Seattle.

There are also relatives in England, Australia and New Zealand.

The funeral will be held on Sunday at 3 o'clock from the B.C. Funeral Chapel to the Jewish cemetery.

NEW BRUNSWICK DEATH

St. John, N.B., July 5.—Dr. Fred R. Taylor, K.C., one of the outstanding barristers of N.B., Brunswick, died yesterday at his home in Robbsey after an illness of some months. He was in his fifty-third year.

CLERKS DISCUSS
THEIR PROBLEMS

Store Workers in This City Seek Betterment of Conditions

Improvements in working conditions and increased remuneration were questions considered at the last meeting of the Retail Clerks' Association. After considerable discussion, it was decided to launch a campaign for wider organization of the store clerks of the city.

The minimum wage paid to women store clerks under the Minimum Wage Act was much below that fixed for women in other lines of employment, it was claimed. This had a direct influence on the standard of wages for male employees which was far below the scale of other lines.

Loss of the weekly half holiday during weeks in which statutory holidays occurred was also a subject of complaint.

Provision of seats for female store employees for many years a subject of obligation in Great Britain, was necessary here, it was pointed out. Plans were laid for an open organization meeting early in the fall and these questions will come under further consideration.

CALGARY AVIATOR KILLED

Marshall, Mo., July 5.—William O. Kay of Calgary was burned to death and his companion, R. Buller of Jacksonville, Fla., was injured near here yesterday when their biplane fell to earth and burst into flames. Kay was twenty-five years of age.

PROTECTIVE FRUIT ORDER

Ottawa, July 5.—An order-in-council has been passed absolutely prohibiting the importation into Canada of non-canned fruits or other plant products from the sections of the State of Florida where infestations of the

Mediterranean fruit fly have been found. This fly is a destructive enemy of fruits and vegetables.

Seaweeds have no roots in a general sense, only holdfasts or anchors. They absorb air, water and salts through the surface of their fronds.

4X C-THRU Hygienic Wrapper

Clean - Sanitary - Convenient

To preserve the oven freshness and wholesome purity of these delicious cakes right to your table, the 4X Bakers have adopted the new hygienic wrapper. Made with strong proofed cake wrapper and top of transparent cellophane. There's no guessing what the cake is like—you SEE its tempting texture through the wrapper—yet fingers can not touch it or dust enter—it's SEALED from the time it leaves the ovens until you open it to serve. Buy your cakes for home or picnic this new, clean, safe way—

We Couldn't Improve the Cake—So We Improved the Wrapper

CANADA LEADS IN HYDRO FIELD

President of Big Japanese
Company Impressed By
Country's Progress

Vancouver, July 5.—Japan looks to Canada as the leader in hydro-electric progress, according to Yasuemon Matsunaga, president of the Toho Electric Power Company Limited, a \$72,000,000 company. Mr. Matsunaga sailed from Vancouver yesterday for Japan after a two-months visit in Europe and on this continent.

"In the power world we now look to Canada first, the United States second and Japan third in hydro-electric development," Mr. Matsunaga said. "During my visit in eastern Canada I inspected some of the great plants your country is developing. I was greatly impressed by what I saw."

"This October," Mr. Matsunaga continued, "world power men will gather in Japan at their annual meeting and I hope Canada will be well represented."

NANCY PAGE

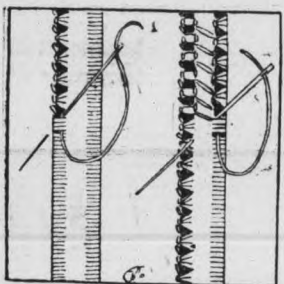

ITALIAN HEMSTITCHING TRIMS
HOT DISH PROTECTOR

By Florence La Ganke

One of Nancy's friends in Florida had a beautiful home where everything was done perfectly. Her maids always wore the correct uniform, her waitresses always did the serving in the most approved fashion. One day Nancy noticed that the waitress did not place a folded napkin between her hand and the hot casserole, but had some sort of pad. She asked Mildred about it and soon Nancy was making hot dish and napkin protector pads for her own home.

She chose round thread linen of medium weight. Two pieces six inches square were used to form a casing into which was slipped a heavy Canton flannel pad. The protector was edged with Binche lace, and the top was ornamented with Italian hemstitching.

Nancy did the hemstitching herself. She divided the six-inch top into two-inch squares, drawing the threads so that there were two narrow rows of drawn threads with a bar of four drawn threads between in each group. She used number forty linen thread for hemstitching. The first, or outer row in each set of parallel rows was hemstitched in regular fashion, taking up three threads of material on needle each time. This work was done on wrong side of material. The two drawn rows were connected over the undrawn bar by working on right side.

The blunt needle was inserted in space at left, passed to right across undrawn bar of four threads, inserted in drawn space and brought up with three threads on needle, then it was inserted under the bar and brought up in left space of three threads in left drawn bar. It is inserted in left bar on other side of these three threads and process is repeated.

HE'S SUING CUBA

The Cuban Government owes him from \$5,000,000 to \$8,000,000, says J. E. Barlow, above, sixty-six-year-old American, and he has retained two former secretaries of President Coolidge—C. Bascom Sloop and Everett Sanders—to prosecute his case. The Senate Foreign Relations Committee has been interested in his claims that Cuban officials confiscated his property and held it in defiance of court orders.

Porch Work
When resting on the porch, why not have a bit of fancy work to pick up? Sofa pillows with slips worked or appliqued on to them are very stylish, a pleasure to make and likely a means of taking your mind afar.

TENNIS STARS WILL TRAVEL

Local Players to Take Part in Tournaments at Portland and Kelowna

I. M. Isaacs and Ross Hocking have been selected to represent the Victoria Lawn Tennis Club at the Pacific Northwest Section Championships which are to be held at the Multnomah Tennis Club, Portland, July 8 to 13. They will pair for the doubles while Hocking will play in the singles.

Marjorie Leeming will start her campaign in the big time by playing in the Oregon State championships which will be held in conjunction with the sectional meet next week in Portland. She will pair with Hocking in the mixed doubles.

Marjorie MacFarlane, who defeated Hope Leeming in the final of the Victoria club women's singles, with her sister, Marion MacFarlane and Mona Miller, will also make the Portland trip. Velda Eitner is another local player who will be entered in the Oregon tournament.

Another contingent headed by Hope Leeming will invade Kelowna at the same time for the Interior of British Columbia title. Major and Mrs. J. S. MacDonald, former residents of Kelowna, are making the trip and will take part in the tournament. E. S. Brown and G. H. Walton, who are entering the veteran's events with J. G. Brown, who is in charge of the tournament, will leave at the end of the week for the interior city.

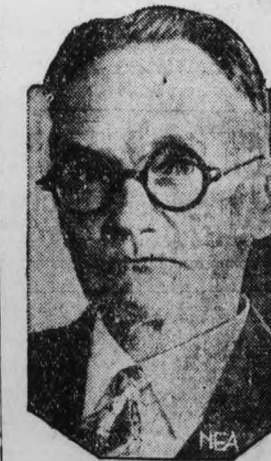

Local players did exceedingly well at the tournament last year.

FROM GOLDEN STATE

California, as usual, picked a representative beauty as "Miss California" for the Galveston beauty pageant. She is Miss Ruby Smith of Oakland, Calif., who vied with beauties from all countries for international honors.

DOCTOR HELD IN "TORSO" MURDER

Dr. F. P. Westlake, wealthy retired physician of Los Angeles, was charged with murder in connection with the disappearance of Mrs. Laura B. Sutton, believed to be the "torso" murder victim whose body, with head and limbs severed, was found recently in the Los Angeles River bed. Westlake is said to have been engaged to Mrs. Sutton, and police said cheque books and a safety deposit box key belonging to her were found in a garage belonging to Westlake's son.

Many doors and hinges develop squeaks in summer. It is a good plan to thoroughly oil all mechanical devices about the house regularly. For hot weather dries out oil very fast and lack of oil ruins the best machine.

Tribute Paid To Women's Institutes

Montreal, Que., July 5.—The Gazette pays this tribute to women's institutes, wherever found:

"One capital motto of the women's institute is this: If you know a good thing, pass it on. According with the best sense of the phrase, here is a help-yourself society, a voluntary compact of feminine citizenry, mutually agreed upon for the discussion of controversial subjects, whether religious or political, yet, outside this mild restriction, enabled to focus attention upon the interest of the home-stead and the things which contribute to improvement in social life. Such matters as sanitation, child training, proper housing, domestic culture and kindred topics are ventilated. It speaks well for the modern taste that the subjects canvassed in meeting are by no means confined to the art of pickling or jellying, for, in one instance, it is reported that the subject chosen by a group of laborers' wives was a course of lectures upon medieval history. The women's institutes are doing good work in a quiet way, without fuss, and in the spirit of cordial fellowship. Their main aim is to make the world a little brighter place in which they themselves and others live. And when the women start a thing, they can be trusted to do it right."

Tragedy Stalks Birthday Party

Toronto, July 5.—Falling from his carriage, ten-months-old Raymond Christian, Mount Dennis, suffered a broken neck and died instantly. His mother had left the baby to make preparations for his brother's birthday party.

YOUR BABY and MINE
by MERTLE MEYER ELDRED

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

LINED BASKETS FOR BABIES

Evidently my readers do not share my distaste for lined baby baskets, for several have sent in information on how to line them. One of the easiest suggestions to follow came from a former dietician in a children's hospital, who followed the plan of folding a sheet into four parts and putting it in the basket first, with the mattress and sheets on top. Then the left-over edges of the sheet were laid back over the basket. This provided a nice, smooth side for the baby in case his fluttering hands should be banged against it, and necessitated only the removal of the mattress and blankets and the replacement of a sheet. Very useful, I think.

DIRECTIONS FOR LINING
The following directions were sent in by Mrs. W. J. K. I found them a little confusing, but I'm printing them as she sent them:

"Perhaps the reason," she writes, "that you found the lining unsatisfactory was that the lining was difficult to remove, launder and replace. Our basket was used on a train trip and the lining removed once each week. It was used until baby was six months old and weighed fifteen pounds."

"The basket was rectangular, twenty-eight inches by fifteen, with two large handles over the top. I used two coats of ivory paint and one and one-half yards of thirty-six inch material, with additional material to make a three-inch binding. The baskets un-

lined (I made two) cost \$1.50 and \$2.00 each. The material used was pink lingette, with cream-colored washable silk crepe for binding.

"1. Fold material lengthwise and sew double seams (French seams) on both sides.

"2. Attach binding to top and make a second row of stitching one-third inch from this to allow for the draw string.

"3. Cut slits for handles and finish these slits with a binding. If buttonholes are made on both sides of the slits the draw string can be run through these and tied. Cut draw strings in two or four lengths and run through these buttonholes. The French seams may be finished with a feather-stitch for decoration.

"The lining is put in and the binding is allowed to fall over the edge. The draw strings are pulled up in order to fit basket snugly."

ANSWER

If I have this straight in my mind, sewing the two short seams of the material after folding lengthwise results in a canoe-shaped piece, which is edged with a contrasting binding, and this edge falls over the outside of the basket after the lining is laid on the inside. But what about the fullness in the bottom of the basket, shouldn't this be gathered in some way to fit the bottom of the basket? I prefer a larger basket, one of the regulation, square, clothes-basket size, as large as can be bought, and suggest in that case that two yards of material would probably be necessary.

When told what had happened, she inspected the premises and the family jewels and plate, and then, finding them intact, went back to bed.

QUEEN OF THE SUN

Leaves Editor's Desk For Altar

Toronto, July 5.—Miss Anne Elizabeth Wilson, niece of Mrs. Lloyd Harris of Brantford, and daughter of the late Robert Burns Wilson and Mrs. Wilson, and Victor Blochin, of Aurora, late lieutenant in the Imperial Russian Grenadier Artillery, and son of M. P. de Blochin and the late Madame A. de Blochin, are to be married on July 6 in Knox College chapel. Miss Wilson is well known among Toronto writers, and has been editor of The Chatelaine since it was founded a year or so ago. She is also the author of a book of poems entitled "Eager Footsteps."

Servants Scare Thief At Country Home

Newmarket, Eng., July 5.—A burglar fired several shots yesterday morning when surprised by servants in the country home here of Marchioness Curzon of Kedleston.

The burglar escaped just as Lady Curzon, awakened by the pistol shots, came downstairs in a dressing gown.

FONTAINE of Brussels Beauty Specialist to Royalty advises this new way to skin beauty

"Palm and olive oils are the best natural skin cleansers. It is a mistake to suppose that the same thorough cleansing can be got by other means. That is why I always insist that before my preparations are applied, the skin must first be cleansed with Palmolive."

Q. Fontaine
25 RUE STE. GUDULE, BRUSSELS

In his shop opposite the Cathedral in Brussels Fontaine has acted as beauty adviser to lovely women of the European aristocracy. Here he has received, with pride, warrants from the Queen and from such dignitaries as Madame la Princesse Napoleon... proclaiming him official "Toumisseur," as was his father, Fontaine pere, since the year 1866.

At 25 Rue Ste. Gudule, is the salon de beauté of Fontaine, beauty specialist by appointment to Her Majesty, the Queen of the Belgians.

PALMOLIVE SOAP Retail Price 10c

The sun, bright-eyed old bachelor of the skies, found himself with a royal bride the other day. She is pretty Miss Catherine Flood, above, named queen of the Sun Celebration which officially opened the summer season in St. Petersburg, Fla., and which commemorated "6,770 days of sunshine in the last nineteen years," which is more than 97 per cent of the time.

MOTHERS AND THEIR CHILDREN

QUARRELING

One mother says: When my two small daughters get to scrapping, I make them both sit on chairs with their backs to each other and tell them that they cannot get up until they have "kissed and made up." Sometimes they will sit there for quite a while, but as they are not allowed to talk, they usually make up in a hurry. At times, this situation appeals to their sense of humor and they start laughing and then it is an easy matter to "forgive and forget." This little measure of discipline has reduced the bickering in our family and the children are growing into agreeable, affectionate and well-disciplined little girls.

Joe Wright Now Reaches Final In Diamond Sculls

Will Meet Dutch Sculler Gunther In Deciding Heat

Canadian Holder of Famous Trophy Defeats F. Bradley of Pembroke College in Semi-final; Gunther Wins Easily Over Viscount Tiverton; Half Gale and Rainstorm Hampers Oarsmen To-day; London Rowing Club Eight Beaten by Leander.

Henley-on-Thames, Eng., July 5—Joe Wright Jr. of Toronto will defend the famous Diamond Sculls in the final to-morrow against L. Gunther of Holland. Wright won his semi-final heat with F. Bradley of Pembroke College, Cambridge, to-day while Gunther was defeating Viscount Tiverton.

Wright won by a length and a half in ten minutes and thirteen seconds. The slow time was largely accounted for by the extremely unfavorable conditions slowing up the scullers.

Gunther entered the final by easily defeating Viscount Tiverton. Gunther won by about ten lengths in the time of ten minutes, forty-six seconds, slow even for the bad conditions prevailing. Gunther struck a pace of thirty-three strokes in the first minute to Tiverton's thirty-one. The Dutchman led up to the island and was a length and three-quarters ahead at the first signal.

INCREASES LEAD

He increased his lead to four lengths, at Paveley reached in four minutes and forty-six seconds. With this comfortable lead, Gunther dropped back into a paceline of twenty-four strokes a minute but even at this lengthened his lead before he finished.

GALE HAMPER ROWERS

Racing opened on the third day of the regatta in a half gale and rainstorm. The wind was dead against the competing crews and single scullers, making the course about as difficult as it has ever been.

London Rowing Club, who eliminated Toronto Argos in the Grand Challenge Cup preliminaries after first rowing a dead heat with the University of Cambridge, to-day by a length and a half won the trophy.

In another heat of the Grand Challenge Cup, premier eight-oared trophy, the Thames Rowing Club, holders, won from Jesus College, Oxford, by a length in 7 minutes 59 seconds.

COLUMBIA BEATEN
The Columbia University lightweight crew was beaten to-day by the first Trinity eight.

Columbia's setback at the hands of the Trinity College boys from Cambridge came in the quarter finals of the competition for the Thames Cup. Trinity beat Columbia to-day by four boat lengths. The winners' time was 8 minutes 28 seconds for the mile and five-sixteenths.

The Browne and Nichols prep school crew of Boston entered the semi-finals of the historic Thames Cup to-day, defeating the Sidney-Sussex College eight in the seventeenth heat of the event. The time was 8 minutes and 35 seconds, and the United States crew led their rivals across the finish line easily.

AMATEUR BODY MEETS TO NIGHT

Local Branch to Hold Annual Meeting in Y.M.C.A.; Officers to Be Elected

Election of officers, discussion of the class "B" amateur rule and the reading of the secretary-treasurer's reports will feature the annual meeting of the Victoria branch of the B.C. section of the A.A.U. of Canada in the Y.M.C.A. this evening at 8 o'clock.

Major sporting bodies of the city including the City Basketball League, the Island Basketball League, Police Mutual Benevolent Society, J.B.A.A., Tulleum Athletic Club, V.I.A.A., City and District Lacrosse Association, City Baseball League, Y.M.C.A. and Provincial Hockey Association, will be represented at the meeting.

The provincial meeting of the A.A.U. of Canada will be held early in August, while the Dominion meeting will take place in September.

FOXY PHANN
The honeymoon is over when hubby starts chewing tobacco again

Martha Norelius Will Join Ranks Of Professionals

New York, July 5—Martha Norelius, New York woman swimmer, who holds most of the world's records from 100 yards to 500 yards, announced here to-day that she had turned professional and would compete in the Wrigley Marathon for women at Toronto, August 23.

New Zealand Champ Wins Long Match

Miss MacFarlane Defeats Hope Leeming 6-3, 4-6, 6-4 in Clay Court Match

Perrins and Laybourne Spring Surprise By Victory Over Merston and Rayment

The outstanding match in the city clay court tennis championships, which conclude to-morrow afternoon, was the three-set marathon between Marjorie MacFarlane, New Zealand champion, and Hope Leeming, the former winning in the third set.

Miss MacFarlane received more opposition than last Saturday and had great difficulty in getting away to a lead. After one break in Miss Leeming's service she first secured a lead which she held through the set and finally won at 6-3.

Miss MacFarlane immediately established a lead which steadily mounted until she reached 4-1. At this point Miss MacFarlane increased her stroking and was making the side lines with good drives that her opponent had difficulty in handling. This mode of play netted the New Zealand champion three games and tied the score at 4-4.

Miracles of Sports

By Robert Edgren

Hack Wilson Gets Himself Into Two Fistic Squabbles

Chicago, July 5—Hack Wilson, the Cubs' pudgy outfielder, yesterday added two to his list of fistic squabbles.

After being banished from the field during the afternoon game with Cincinnati, for attacking Ray Kulp in the Reds' dugout, Wilson sent his first crashing twice into pitcher Donohue's face when the two teams met at the Union Station last night to entrain for the east.

The afternoon fight occurred when Wilson took offense at a remark by Kulp who was sitting in the Reds' dugout. Wilson, who had reached first base on a single, stride over to the dugout and struck Kulp. Several blows were struck before players, umpires and police could pry the fighters apart. Wilson and Kulp were immediately ordered off the field.

Campbell defeated Mrs. Poyntz and Mrs. Monahan, 6-1, 6-0.

Miss MacFarlane defeated Mrs. and Miss Mawhood, 6-1, 6-4.

MEN'S DOUBLES
McCallum and Gordon defeated Schwengers and Eagle, 6-1, 6-1.

Perrins and Laybourne defeated Merston and Rayment, 1-6, 6-4, 6-4.

MIXED DOUBLES
Miss Tatlow and Rayment defeated Mrs. Mawhood and Clarke, 6-1, 6-1.

Miss Hope Leeming and McCallum defeated Miss Rithet and Jones, 6-1, 6-2.

Miss Russell and Isaacs defeated Miss Marjorie Leeming and Phillips, 1-6, 6-2, 6-3.

Miss Mary Campbell and Hocking defeated Miss Miller and Corfield, 6-1, 7-5.

LADIES' CONSOLATION
Miss Jean Campbell defeated Miss Bessie Richards, 6-4, 7-5.

MEN'S CONSOLATION
Bird defeated Prentice, 3-6, 7-5, 6-4.

Ismy defeated Matson, 6-3, 6-2.

THIRD POSITION TO BE AT STAKE

Jokers and Sidney Will Hook Up in Important Ball Game To-night

With both clubs badly in need of a win, Jokers and Sidney will tangle at the Royal Athletic Park to-night in a Senior Amateur League baseball game. The fixture will get started at 6:15 o'clock.

Sidney and the Jokers are at present tied for third place and to-night's game will decide which club retains the position, one game behind the Sons of Canada, last year's champions, who occupy second place.

Stickney or Donaldson will take the slab for the Jokers, while Steele or Williams will pitch for Sidney.

Young Stribling Scores Knockout

Birmingham, Ala., July 5.—W. L. (Young) Stribling of Macon, Ga., knocked out Tony Puente, Mexican boxer, in the second round of a scheduled ten-round bout, here last night. Both are heavyweights.

THRILLING FINISHES ARE SEEN

Dowagiac and Osmand in Nose Wins at Arlington and Aqueduct Tracks

Latter Wins Ancient Handicap For Second Time; Good Prices Are Paid

Chicago, July 5—Dowagiac, black son of Upey, lugging the colors of the Wild Rose Farm, gave a holiday racing crowd a thrill yesterday, making a terrific finish to win the \$15,000 Stars and Stripes Handicap, Arlington Park feature, from Mistep, by half a length.

Dowagiac, a rank outsider, cleverly ridden by Jockey E. Barnes, stayed behind Mistep, the favorite, until the stretch, and flashed to victory by a great margin.

The Wild Rose Farm gelding paid \$23.34 for \$2 in the mutuels. Sun Beau, another heavily played entry, was third. The distance was a mile and a furlong.

Clive Van Dusen, winner of the Kentucky Derby, regained some of his prestige by winning the Old Glory Handicap, an added feature, from a small but good field, with Francis Millward, owned by Mrs. E. Denemark.

Second and Windy City, victor in the American Derby, third. The Man o' War three-year-old stepped the mile in 1:32.2-5.

HIS SECOND VICTORY
One of the greatest geldings in American turf history yesterday became the second horse to win the ancient Carter Handicap twice as he whipped a classy field of veteran runners in the Aqueduct Independence D feature race.

Audacious won the turf fixture in 1929 and 1921, while Osmand accounted for the race last year as a four-year-old.

The five-year-old Sweeper took up the heavy impost of 132 pounds and then beat J. P. Macomber's Pete Wrack to the finish line by a nose. But it took a great stretch drive by Willie Garner, who was up on the Widener gelding, to send the scarlet and white colors of the millionaire sportsman under the wire the victor.

The Fair stable's speedy five-year-old, Byrd, which was responsible for Osmand's only defeat of the season, went out in front at the rise of the barrier, setting a burning pace. Garner, however, held Osmand back in third place until the field hit the long stretch.

Then the little jockey gave his mount the word and he responded with a burst of speed that carried him to the front. But Steve O'Donnell had Pete Wrack right after him. Osmand, however, stood the long drive to nose the Macomber colt out of the \$8,900, which was the winner's share of the purse.

Distraction flushed third. The time for the seven furlongs was 1:26.3-5.

FAVORITE WINS
Leo Lampo, from the G. Philpot stable, captured the feature event, the Independence Day purse, at the Reno track yesterday before a crowd of 6,000 persons.

Installed a 13-to-10 favorite, he contested superbly to take the mile contest with Jenson's second and Bill Falabac's third.

Adolph Benoit and Arthur Roach

Tommy Fielding Fights Klick In South To-night

San Francisco, July 5—Tommy Celio, lightweight, and Frankie Klick, featherweight, local favorites, will be featured in two ten-round bouts at Dreamland Auditorium to-night. Celio meets Pedro Amador, Panama, and Klick faces Tommy Fielding of Victoria, B.C.

each rode two winners. It remained for Benoit to bring in the only long shot, Tom Nash in the fourth, paying \$20 and Lurman in the fifth, a 2½-to-1 favorite.

Roach's victories were gained on Monday in the first and Gay Boy in the eighth, rewarding backers \$10 and \$7, respectively. Both were favorites.

Gold Hills, even money favorite, took the two-year-old contest.

Air Castle won the seventh, paying 7 to 1.

Moonshine Frank was returned winner in the second. His price was \$14.20.

Rosenbloom Wins Decision From Kentucky Boxer

Portland, July 5—Maxie Rosenbloom, New York, won a decision over Jerry Anderson of Covington, Ky., yesterday afternoon, in ten rounds, in the main event of the big open air boxing programme staged on the grounds of the Portland Pacific Coast Baseball League club. The New Yorker used a snappy straight left with an occasional right cross to pile up his lead. He held an advantage in practically every round.

VICTORIA MATCH

Junior Net Star Holds Spotlight In Championship

Vancouver, July 5—Leading players occurred at the Jericho Tennis Club yesterday in the fourth day's play of the British Columbia Clay court tennis championships. The men's singles reached the semi-final rounds and similar progress was made in other divisions.

Young Jack Brown, Vancouver Junior star, stepped into the limelight again. Brown eliminated Harold McLean of the Jericho Club in the men's singles, 6-3, 6-4, and then paired with Dunc Williams of the same club, but Perry Truett and Don McLaren, Seattle stars, out of the men's doubles. The match, won three sets, the juniors winning, 3-6, 6-3, 7-5.

Prusoff, reached the semi-finals in the singles.

Q.M.S. Evans Leads Big Field In Blue Ribbon Rifle Event

Member of Garrison Rifle Association Clicks Off a Score of 103, Two Points Shy of a Possible in First Stage of Lieutenant-Governor's Match at Heal's Range; Staff Sergeant W. McKay of Garrison Club Wins Victoria Match.

With excellent weather conditions prevailing yesterday at Heal's Range some very good scores were turned in during the second day of competition in the fifty-first annual meet of the B.C.R.A. Many veteran marksmen at the butts have expressed their opinions that better conditions would be hard to find at any range.

Riflemen from Victoria took their first major events yesterday. Staff Sergeant McKay and Quartermaster Sergeant Evans turning in victories for capital city marksmen.

The first stage of the Lieutenant-Governor's Match, the blue ribbon event of the meet, took place yesterday and Q.M.S. Evans of the Garrison Rifle Association, led the field with 103 out of a possible 105. With all marksmen in this event struggling to score high enough to get in the select thirty-six who will enter the second stage of this match Saturday, splendid scores were turned in. Five marksmen shot off for the three remaining places in the second stage.

Staff Sergeant W. McKay of the G.R.A. won first place in the Victoria match with a 69 out of a possible 70. McKay's victory in this match gives him the honor of being the first Victoria man to capture a major prize at the present meet.

The Victoria match is shot at distances of 300 and 800 yards, with seven shots at each target and is open to all comers. The Corporation of the City of Victoria Cup goes to the winner. In addition to first prize money McKay will now hold this trophy for one year, and as he has one leg on it, one more victory in this particular match will make the cup his personal property.

EVANS IS SECOND
Q.M.S. A. E. Evans, also of the Garrison Rifle Association, took second place, one point behind the winner. Q.M.S. A. E. Evans and Capt. S. Henson, both of the Canadian Scottish Regiment, and Gunner Brown and Major F. Richardson, both of the Fifth C.G.A., all scored sixty-eight and finished in the order named.

In the Vancouver match Capt. McNeil of Seaforth Highlanders of Vancouver and Q.M.S. A. E. Evans of the Garrison Rifle Association, both scored forty-nine to head the list, but the former was hitting the bullseye more consistently toward the latter part of the match and consequently garnered first prize money. However, in the shoot off of the tie for the cup and the last prize, Evans won by a twenty-four to Capt. McNeil's twenty-one.

Scores in this match show clearly the high calibre of the shooting at this meet, as only a few points separated the winners and the last prize winners.

SANDY-WUNSCH
In the Sandy-Wunsch match for cadets, Cadet-Sergeant R. Mercer scored a sixty-one to take the cup, a miniature and the first cash prize. Cadet Cpl. Richardson scored fifty-six to take second place.

The result of the shoot-off for the Westminister Cup and B.C.R.A. medal ended with Capt. Gardner of the Vancouver Regiment scoring a 24 out of a possible 25 against a 23 of Lieut.-Col. Letson of the B.C.R.

The P.P.C.L.I. Service trophy match open to teams of five from any unit of the Non-Permanent Active Militia was won by the 5th C.G.A. team, representing the Vancouver Regiment. This team was composed of Capt. Gardner, R.S.M. Lamb, Sergeant Heaman, Sergeant Clamney and Sergeant Caplin. The Sixteenth Canadian Scottish "B" was second.

Yesterdays's scores follow:

Q.M.S. A. E. Evans, G.R.A., 103; Sgt. W. McKay, G.R.A., 102; Sgt. S. Henson, G.S.R., 99; Maj. F. Richardson, 5th C.G.A., 99; Q.M.S. W. H. Wood, P.P.C.L.I., 99; Gnr. S. Brown, 5th C.G.A., 98; D. McIntosh, V.R.A., 98; S.H. of C., 95; Capt. D. R. Blair, S.H. of C., 94; Pte. J. Ker, C.S.R., 94; Gnr. A. Ashe, C.S.R., 94; Gnr. A. Hooper, G.R.A., 94; Pte. P. Ower, I.P. of C., 94; S-M. E. J. Read, G.R.A., 94; Lt. E. Woods, 5th C.G.A., 94; P. O. W. Taylor, R.C.N., 94; R.S.M. F. Hatch, 5th C.G.A., 94; Capt. S. Henson, C.S.R., 94; Capt. H. L. Robinson, 5th C.G.A., 94.

The under-mentioned will shoot off for places 94, 95 and 96: Lt. O. J. Weiler, C.S.R., 93; Lt.-Col. G. Letson, B.C.R., 93; Capt. C. Wilson, R. of O., 93; S-M. E. J. Read, G.R.A., 93; R.Q.M.S. A. Lamb, Van. R., 93.

SANDY-WUNSCH MATCH
Cadet Sgt. R. Mercer, University School, 61; Cadet Cpl. J. Richardson, University School, 56; Cadet S-M. Tisdall, University School, 55; Cadet Sgt. A. Tuik, University School, 52; Cadet G. M. Billings, University School, 50; Cadet H. S. Underhill, University School, 48; Cadet C. C. Parsons, University School, 48; Cadet Lt. F. O. White, University School, 46; Cadet Sgt. J. C. Swanson, University School, 45.

Helen Wills Is Again Queen of World's Tennis Stars

Captures Her Third Crown Without Loss Of a Single Set

Defeats Helen Jacobs, Fellow Californian, in Final at Wimbledon To-day 6-1, 6-2; Lost Only Fifteen Games in Her Six Matches to Win Her Third Straight Title; I. G. Collins and Miss Joan Fry Spring Upset by Victory Over Cochet and Miss Eileen Bennett.

Wimbledon, July 5.—Miss Helen Wills asserted her supremacy over the world's women tennis players to-day by defeating Helen Jacobs, fellow Californian, in the final for the women's singles championship by scores of 6-1, 6-2.

Many had thought that "Helen the Second" might be able to extend the queen of the courts, but the match was all Miss Wills's.

The victory climaxed a series of phenomenal straight set triumphs over the best women players of Europe and the United States and gave Miss Wills the prized Wimbledon coronet for the third straight year. Recently she won the French championship, also in repetition of a triumph achieved last year.

Miss Wills never won a championship more majestically than on this occasion. She defeated Miss Jacobs with the same ease with which she disposed of five other opponents on her way to the final Queen Helen wears the Wimbledon crown again without having lost a set and has

dropped only fifteen games in her six matches in this tournament.

SPRING SURPRISE

I. G. Collins and Miss Joan Fry, one of England's strongest mixed doubles teams, sprang a surprise when they defeated Henri Cochet, of France, and Miss Eileen Bennett, England, 2-6, 6-4, 8-6, in the quarter finals.

ENTERS ANOTHER FINAL

Miss Wills entered the final for another championship when, shortly after her single victory she and Frank Hunter defeated the South African team, Miss "Bobbie" Heine and N. G. Farquharson, in the mixed doubles semi-finals by scores of 6-8, 6-2, 6-3. They will oppose I. G. Collins and Miss Joan Fry, a formidable English team, for the championship.

FORDS DOUBLE SCORE AND WIN

Whippets Unable to Halt Leaders in Garage Baseball League

Fords, leaders of the Garage Baseball League, continued their winning streak last night when they doubled the score on Philmy's Whippets to win by a 16-8 count at the Royal Athletic Park. The victory virtually assures them a place in the play-offs at the end of the season.

A circuit drive in the first inning by Wally Williams, Ford catcher, proved the feature of the game.

Meyers, who pitched for Philmy's, was hit heavily, while "Doc" Todd, in the box for the winners, pitched a fair game and kept the hits scattered.

INTERNATIONAL LEAGUE

Reading, 5-13; Baltimore, 2-12; Toronto, 10-4; Buffalo, 3-1; Jersey City, 5-3; Newark, 8-2; Montreal, 5-0; Rochester, 11-5.

JABBY

"These fellows who think that the world owes them a livin' usually forget that they gotta collect it."

U.S. RECORDS ARE SHATTERED

Four New Marks Established at A.A.U. Track and Field Championships

Denver, Colo., July 5.—Under the relentless charge of a host of the finest athletes in the United States four new national Amateur Athletic Union records were created yesterday in the senior track and field championships.

Sixteen new title holders were crowned, while only Herman Brix, in the shot put, Harry Hinkle in the three-mile walk, Steve Anderson in the 120-yard high hurdles and Pat McDonald in the 56-pound weight were able to retain their honors.

Jess Mortenson of the Los Angeles A.C. beat the A.A.U. record in the javelin, 202 feet 1 1/2 inches, with a throw of 204 feet 9 1/2 inches.

Eric Krenz of the Olympic A.C., San Francisco, threw the discus 157 feet 2 inches, compared with the old record of 153 feet 8 1/2 inches.

U.S. RECORDS ARE SHATTERED

Four New Marks Established at A.A.U. Track and Field Championships

Denver, Colo., July 5.—Under the relentless charge of a host of the finest athletes in the United States four new national Amateur Athletic Union records were created yesterday in the senior track and field championships.

Sixteen new title holders were crowned, while only Herman Brix, in the shot put, Harry Hinkle in the three-mile walk, Steve Anderson in the 120-yard high hurdles and Pat McDonald in the 56-pound weight were able to retain their honors.

Jess Mortenson of the Los Angeles A.C. beat the A.A.U. record in the javelin, 202 feet 1 1/2 inches, with a throw of 204 feet 9 1/2 inches.

Eric Krenz of the Olympic A.C., San Francisco, threw the discus 157 feet 2 inches, compared with the old record of 153 feet 8 1/2 inches.

The time for the 440-yard run was lowered by 2-10 of a second by R. F. Bowden of the Pittsburgh A.C., who was clocked at 48 4-10 seconds.

A new meet record for the pole vault was hung up by Fred Sturdy of Yale, representing the Los Angeles A.C., who went over at 13 feet 9 1/4 inches, 1/4 inch better than the mark made last year by Les Barnes of the University of Southern California, and Sabin Carr of Yale.

The Olympic Club captured the team championship with 44 points, displacing the Los Angeles A.C., which piled up a total of 39.

TOLAN WINS DASH

The 100-yard dash, heralded as the "century of the century," because of the class of the field, saw Eddie Tolan, the "midnight express" of the University of Michigan, crowned as the season's champion. A southwest gale was blowing against the sprinters as they went to their marks, and anything like record time was out of the question.

Frank Wykoff of the Los Angeles A.C., the defending champion, never was in the race. He got off to a poor start and had to be content with fourth place.

Institute crowding Tolan for second place and Russell Sweet of the Olympic A.C. taking third.

Tolan made it a double triumph when he came back to win the final in the 220-yard dash, also run against a stiff wind.

THE BIG SIX

Jimmy Fox and Rogers Hornsby again claimed the spotlight in the "Big Six" yesterday by smashing out seven hits between them in the two double-headers they played. Athletics first baseman tied his average two points to 412 with three out of six in the two games, while the Rajah climbed to 366 with four out of eight. Babe Ruth also helped his average three points with three out of seven in the two games.

To Farm Or to Play! —By Jimmy Thompson

Eddie Shore, probably the greatest defence hockey player in the world, and member of the Bruins, is sorely troubled. He is trying to decide whether to play hockey next season and pull down \$17,500 for his troubles, or to become a farmer in the Canadian west at a net profit of \$25,000 a year.

The \$17,500 is the valuation that Eddie has put on his services to the Bruins next year, and if he doesn't get it he stays on the farm, no matter how much Mr. Hockey Fan shouts for his appearance.

When Eddie wore the blades for the Eskimos he was one of the most popular players in Edmonton and is just as popular as ever with the western fans.

At present he is planning one of the finest farms in the Canadian west, and he says that in a few years he will have it finished.

Art Ross, manager of the Bruins, knows his hockey and although it may be a strain on the pocket to give Eddie such a handsome salary, he will, in all likelihood, manage somehow to keep him on the line-up of the Bruins next winter.

Ganey, \$3.00, \$2.40; 3, King Flame, \$2.90.

Fourth race, five and a half furlongs—1, Pat, \$6.00, \$3.00, \$2.40; 2, Honey Thistle, \$2.60, \$2.30; Perrona, \$2.50.

Fifth race, six furlongs and fifty-five yards—1, Virginia Beauty, \$4.50, \$3.00, \$2.40; 2, M. J. McNulty, \$3.80, \$2.50; Dapper, \$2.80.

Sixth race, four and a half furlongs—1, Glad Ace, \$3.80, \$2.40, \$2.40; 2, Hootenanny, \$2.70, \$2.80; 3, Red Plume, \$4.70.

Seventh race, mile and seventy yards—1, Heroakera, \$18.10, \$8.20, \$4.40; 2, Tea Ball, \$12.30, \$5.40; 3, Randolph, \$3.00.

golf shots in a certain way for over twenty years. So I did not dare try many things Morrison wanted me to do. But I did think about the straight line idea, recalling at the same time that I did keep my hands and arms abnormally close to my body. Many times I had had a feeling of being cramped or forced into a strained position which might very well have been traced to being too close within my shell. In addition having been driving very badly since I took up golf again this Spring I was willing to try anything.

NO INCLINATION TO TOPPLE

So during the last two rounds which I have played I have been careful when addressing a full shot of any description to stand away from the ball to any extent which makes necessary a full extension of the arms without the necessity of reaching out for the ball and thus upsetting the balance of the body. After a fair trial I am able to say that in that position it is possible to exert more power, there is less chance of cutting across the ball, and there is practically no inclination to topple forward in hitting as is the case when the ball is played from a position too close to the feet. I am delighted with the change for I believe I can drive farther and straighter from the new position than ever before.

Old Country Cricket

London, July 5.—Leicestershire won from Somerset by an innings and 109 runs in one of the English first cricket matches in which, owing to rain, definite progress was made yesterday. The scores were: Leicestershire 311 for eight wickets, Riley 83; Somerset 108 and 97. Astel, seven wickets for 34 runs.

Closing scores in other matches were: At Birmingham—Surrey, 273; Warwickshire, 341 for two wickets.

At Brighton—Worcester 93 and 41 for two wickets; Essex 308 for seven wickets.

At Portsmouth—Hampshire 117 and 99 for four wickets; Middlesex 152.

At Nottingham—Notts 512 for six wickets; Glamorgan 107.

At Eastbourne—Cambridge, 273; Leveson-Gower's eleven 125 for four wickets.

At Chesterfield—Yorkshire 239; Derbyshire 145 for eight wickets.

It is rather hard to change over entirely after hitting several million

When in New York a week or so ago I had a little chat with Alex Morrison, the chap who tells us that the three fundamentals of golf are "chin back, two hands working in unison, and balance."

In the course of the conversation it developed that it was Morrison's idea that the ideal position at address involved, among other things, a straight line from the left shoulder to the ball. He pointed out that one of the defects in my form was that my hands and arms were too close to my body thus breaking the straight line between the left shoulder and the club head.

It is rather hard to change over entirely after hitting several million

NEW DIVING PLATFORM AT LANGFORD LAKE

The Langford Lakeside, one of the popular resorts adjacent to Victoria, has just completed a new swimming and diving platform at Langford Lake. It is being extensively used.

Triple Play Robs

Cincinnati Reds Bring Chicago Rally in Eighth to Abrupt End; Pittsburgh Sweep Two More Games From Crumpling St. Louis Cardinals, Who Have Now Dropped Into Second Division; Giants Split Two; Athletics and Yankees Both Win Two.

If the Pittsburgh Pirates nose out the Chicago Cubs by a margin of one thin game at the end of the National League pennant race on next October 6, July 4 will go down in Chicago baseball annals as a sort of "Black Thursday."

With the current leadership hanging upon almost every pitched ball, the Cubs entered into an agreement with the Cincinnati Reds to halt the morning game at 12:30 p.m. The Reds won, of course, and the Cubs dropped out of first place as the Pirates swept two more decisions from the crumpling St. Louis Cardinals.

The New York Yankees have an unhappy memory of a single game similarly curtailed at the height of the 1924 campaign to enable the champions to keep an exhibition engagement at Indianapolis. The Detroit Tigers took that decision by a single run in eight innings, and while the defeat did not stand alone in depriving the champions a fourth straight flag, the fact remains that Washington won by only two games at the finish.

A TRIPLE PLAY

The morning game at Chicago yesterday came to its abrupt close at the end of the eighth with the Reds in front, 9-8. It was topped off by a Cincinnati triple play just as it seemed that the Cubs were heading for a certain tie and a possible victory.

After the men of Hendricks had taken the lead with a single run in the first half of the eighth, singles by Gonzales and Malone put Cubs on first and third, with McMillan coming up.

Pittenger seized McMillan's grounder, tagged Malone on the baseline and hurled the ball to Kelly, doubling McMillan. Senor Gonzales, never a galle, became the third victim as Kelly's quick throw to Gooch met the Chicago catcher at the plate.

A crowd of 18,000 witnessed the morning game in the rain, but 25,000 braved the weather to see the afternoon contest. With Fred Blake's good pitching after an unsteady first round, followed by hard hitting, the Cubs rewarded their followers with a 10-5 victory in the afternoon but McCarthy's lead of half a game had been crushed under the weight of two Pittsburgh victories.

IN SECOND DIVISION

Henry Meine pitched the Pirates to an 8-4 triumph over the Cardinals in the morning and Remy Kremer repeated the performance in the afternoon. With Fred Blake's good pitching after an unsteady first round, followed by hard hitting, the Cubs rewarded their followers with a 10-5 victory in the afternoon but McCarthy's lead of half a game had been crushed under the weight of two Pittsburgh victories.

The lower half of John Heydler's circuit with its definitely established membership of long standing, is not easily accessible to a first division team seeking a place to bed down for the summer, but it is believed that Wilbert Robinson could be persuaded to evacuate in favor of the Cards. The Brooklyn Robins really are gathering speed, for as the heats are hurried at them earlier in the campaign.

The Phillies outpunched Brooklyn by 14 to 12 in a wild first game yesterday, but the home forces rallied behind the curving of Johnny Morrison to romp off with the second by 5-3. It was Morrison's sixth successive victory since his debut as a Robin five weeks ago. This even division left the Robins only three and one-half games to the rear of the fourth place Cards, who now have lost nine straight and fifteen out of their last seventeen.

RALLY WINS GAME

The New York Giants completed the National programme yesterday by dividing a double-header with the Boston Braves whom they had hoped to defeat twice. The Bostonians snatched the opener by 4-3 in a ninth round rally, but Larry Benton won the nightcap by 8-0.

Events in the American League on the holiday moved along pretty much according to schedule. The Philadelphia Athletics defeated the Boston Red Sox by 3-1 in the morning and 8-1 in the afternoon. Bob Grove chose the morning engagement for his thirteenth victory.

The New York Yankees won from Washington 8-4 and 14-4 in a double-header, maintaining their position in the one-half games behind the Mackays and three points in front of the St. Louis Browns, who also are nine and one-half contests removed from first place.

The Browns trimmed the Tigers 12-6 and 7-6 as a warm up for their series against the Yankees to decide possession of second place for the time being. The Chicago White Sox won the opener from Cleveland by 9-2, but the Indians turned the tables in the second game, 12-5.

NATIONAL LEAGUE

At Chicago, first game—R. H. E. Cincinnati 9 14 1

Chicago 8 15 1

Batteries—May and Gooch; Malone and Gonzales. (8 innings)

Second game—R. H. E. Cincinnati 5 11 1

Chicago 10 13 3

Batteries—Donohue, Erhardt and Sukeforth; Blake, May and Schulte.

At Pittsburgh, first game—R. H. E. St. Louis 4 11 1

Pittsburgh 8 11 0

Batteries—Johnson and Smith; Meine and Hargreaves.

Second game—R. H. E. St. Louis 2 6 0

Pittsburgh 8 12 2

Batteries—Haid, Holland, Frankhouse and Wilson; Kremer and Hargreaves.

At Brooklyn, first game—R. H. E. Philadelphia 14 20 1

Brooklyn 12 16 2

Batteries—Seward and McGraw and Davis; Clark, Moss Kowal, Willoughby,

SEALING TENDERS FOR DREDGING
Sealed tenders addressed to the undersigned and endorsed "Tender for Wharf Repair, Bella Coila, B.C." will be received until 12 o'clock noon (daylight saving), Tuesday, July 23, 1929.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with the conditions set out therein.

Combined specification and form of tender can be obtained on application to the undersigned, also at the office of the District Engineer, Post Office Building, Victoria, B.C.

Tenders must include the towing of the plant to and from the work.

The dredges and other plant which are intended to be used on the work shall have been duly registered in Canada at the time of the filling of the tender with the Department.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, for 5 per cent. of the contract price, but no cheque to be for less than \$500. Bonds of the Dominion of Canada or bonds of the Canadian Railway Company will be accepted as security, or bonds and a cheque if required to make up an odd amount.

By order, S. E. O'BRIEN, Secretary, Department of Public Works, Ottawa, June 24, 1929.

Nothing Daunts Island Officer And His Fiancee

Seattle, July 3.—They had to call out the police reserves to accomplish their end, but, nevertheless, Provincial Policemen and Mrs. Joseph Devlin of Duncan, B.C., were spending the first day of their honeymoon in Seattle yesterday.

Devlin and his fiancee, Miss Jessie Thirk, arrived here late Wednesday night, intent on getting married, but they found the courthouse closed and were unable to get a license.

So Devlin sent an SOS call to the Seattle police. They routed County Auditor George A. Grant from his bed and a license was finally issued. Then the mayor's own automobile was commandeered to drive the couple to the home of the Rev. Honor L. Wilhelm, 2356 West Sixty-first Street.

Patrolmen Perry Hackler and R. C. Osborn of the Seattle force did the honors for their brother officer while the minister's daughter, Miss Margaret Wilhelm, attended the bride.

C.P.R. PARTY TO BE VISITORS TO-MORROW
(Continued from page 1)

MINING FIELD
Mining activities in British Columbia brought comments from Mr. Hall. He declined, however, to discuss the recent transaction whereby the Consolidated Mining and Smelting Company, a business ally of the Canadian Pacific Railway, had acquired the Canadian Northeastern Railway, the western terminus of which is Stewart, on the Portland Canal.

PACIFIC RIVER DISTRICT
When it was intimated to Mr. Hall that British Columbia people were anxious to know of any plans of the Canadian Pacific Railway regarding a connection with the Peace River district, he said there was nothing to say on that point. He said a survey of the country tributary to the Pacific Great Eastern Railway was being carried out jointly by the Canadian National, the Government of British Columbia and the Canadian Pacific Railway. Any plans that had been completed there would be nothing decided upon by those interested.

ALBERTA OIL
Referring to oil developments in Alberta, the vice-president stated there was reason for confidence in the oil industry. That there had been no diminution in the production of oil brought in was encouraging. At Calgary he had found his company purchasing large quantities of oil from the Calgary refinery, some of which he thought was the product of Turner Valley.

Mr. Hall and his party arrived in Vancouver yesterday.

DEATH TOLL IN U.S. ON HOLIDAY TOTALLED 159
(Continued from page 1)

Contrasting with the 1928 heat was a ten-minute snowstorm at Speculator, N.Y., the snow falling so fast that holiday motorists, blinded, stopped their cars to avoid collision. It was the coldest July 4 this section had experienced in years, the temperature being down to fifty degrees.

BEACH TRAGEDY
Grand Haven, Mich., July 3.—The surf and undertow swept from Lake Michigan took the lives of ten persons here yesterday, all drowning virtually simultaneously and within a radius of but a few hundred yards. Nine of those who lost their lives were bathers at a municipal park beach and the other was a girl who, with three companions, were swept from a pier at the beach by a giant breaker which hurled the four into the water. A terrific undertow apparently caused by the huge combers which first swept the pier, carried the nine bathers to their deaths. Hundreds of persons ashore watched horror-stricken as the nine were whirled, screaming for help, far into the white-capped lake.

Those drowned were: Mildred Fittfield, nineteen; Robert Shindler, nineteen; Julius Tisel, nineteen; Leonard Kellie, twenty; Carl Rohoff, twenty-one; Walter Schwartz, nineteen; John B. Giddings, twenty-one; Frank Petrowski, forty; Rudolph Pitulik, twenty-two; and Edwin Pitulik, twenty-one.

FOUR BODIES RECOVERED
All were residents of Grand Rapids, except the latter two, brothers, who were from Detroit. Four of the bodies were recovered, but lake shore residents said it might be days before the other bodies would be washed ashore.

Three lifeguards stationed at the beach launched a boat after pulling from the water the four swept off the pier, in an attempt to rescue the nine struggling outside the surf, but their small craft foundered.

Miss Fittfield was among the four on the pier. Attempts to revive her through artificial respiration failed.

The guards say they had warned all bathers as they entered the water that the surf underfoot made it unsafe to swim far out, but that the nine swimmers drowned disregarded the caution and were pulled under while attempting to regain shore after swimming to a raft anchored off the beach.

RESERVED SEATS SUNDAY IN ABBEY TO BE LIMITED
(Continued from page 1)

The number of reserved seats in the Abbey has been kept at the lowest possible limit, and the nave will be left open to the earliest comers. It is hoped the people will attend the thanksgiving services at their customary places of worship or elsewhere in their own neighborhoods. But undoubtedly crowds will flock to Westminster Abbey.

The King and Queen will arrive at the Abbey a few minutes before 11 a.m. Preceding them by a short time will be the Prince of Wales, the Duke and Duchess of York, Prince George, Princess Mary and Viscount Lascelles, the Princess Royal (Princess Louise, Duchess of Fife), and Princess Victoria Alexandra, sisters of King George.

TALKIES AID MUSIC, FRIEDA HEMPEL SAYS

BY FRIEDA HEMPEL
(Noted Opera Star)

We are living in an inventive and progressive age. Observation proves that the old established institutions are supplemented and benefited rather than destroyed by invention and progress. It seems to me that invention can only stimulate efficiency, not merely in its own field but in other closely related fields.

Neither of the marvelous systems of telephone and telegraph destroyed the other. On the contrary, they have supplemented each other and both systems have prospered tremendously together. The same should be true of music and the sound picture.

The development of the motion picture industry struck terror to the hearts of dramatic producers and directors. Perhaps this shock was needed to stimulate an effort to produce better dramas. At any rate, notwithstanding the stupendous paragon of the moving picture industry, the drama and musical comedy still exist, with the intrinsic qualities of each inimitable in the talking motion picture. While some of the best "legitimate" actors found lucrative employment in the motion picture studios other talent best adapted to the demands of the theatre remained there.

SOUND PICTURE WILL RAISE CONCERT-OPERA STANDARDS
I like to entertain a broad, optimistic attitude toward whatever is progressive. Instead of sharing the opinion of some that the sound picture will injure the concert or opera, I believe it will raise the standard of both. The concert and the opera have always attracted the more discriminating part of the entertainment seeking public and such people will probably become even more discriminating.

The motion picture producers have quite logically in the past produced different grades of screen pictures at different costs and with a range of selling prices.

Very likely the sound picture productions of the future will function similarly. This means that the producers will use varying grades of talent, ranging from the great artist in elaborate productions to small talent in small productions.

Wonderful as motion pictures with sound really are in the reproduction of sound and visual image, we must not forget that they can only imitate a human being and not recreate one. Just as there is an insurmountable difference between a real person and another, photographed likeness, so there is a difference between the actual voice and the mechanical reproduction. However, the radio, the phonograph and the talking picture are almost uncanny in their reproductions. For this very reason they must be more than careful in selecting truly fine vocal talent to reproduce.

NOTHING TO FEAR IN NEW INVENTION
I am entirely fearless in viewing the future of opera and the concert in the age of sound motion pictures. One has no advantage, another has none. Each is a distinct field with unique qualities of entertainment. While the motion picture can give scope and movement, the operatic and concert stage is rich in the direct contact with the performer which it offers to the audience. A great number of the public have a normal, human curiosity to see and hear outstanding personalities and great artists in person, for the images of the screen cannot possibly take the place of the presence of flesh and blood actors and actresses, singers and dancers.

It is the beginning of a new era in which motion pictures, the theatre, the opera and the concert stage will unite for greater entertainment, each drawing from the other, complementing the other. There are strong indications that the sound picture productions will force concert and operatic managers to seek and provide the highest grade of talent for audiences that cannot help growing more discriminating with the greater variety of entertainment at its disposal.

PREMIER TO ATTEND
Very Rev. W. F. Morris, Dean of Westminster, accompanied by the Archbishop of Canterbury, will receive the King and Queen at the west door, and there will be a procession through the nave to the sanctuary. Those participating will include the Marquis of Salisbury, who holds the ancient office of Lord High Steward of Westminster; Premier Ramsey MacDonald and three members of his Cabinet—Lord Passfield, Lord Thomson and Lord Parmoor. The dean and archbishop will conduct the service.

Some of the sentences in the thanksgiving service will be the same as those used at similar service for the recovery of King George III from the mental malady which beset him in 1789. There will also be passages reminiscent of the service at St. Paul's Cathedral in thanksgiving for the recovery of the Prince of Wales, who was afterwards Edward VII.

FIEDLER PLAYS CATCH WITH A BLIMP

Bing Miller, right fielder for the Philadelphia Athletics, caught the highest fly of his life the other day. It was thrown from the Goodyear blimp, Mayflower, from an altitude of 600 feet. Miller snagged two out of three balls, but the third one hit him a glancing blow and floored him. Here you see him on the Phillies' home field waiting for the last toss.

United States investment in Canada in 1928 totaled \$4,120,000,000, as compared with \$3,992,000,000 in 1927.

The stars Arcturus and Vega are much brighter than our sun. Vega is 51 times as bright and Arcturus 112 times as bright.

Bromine occurs in sea water to the extent of sixty to seventy parts per million.

The area of the oceans of the globe is 139,295,000 square miles.

A BEAUTIFUL HOLE

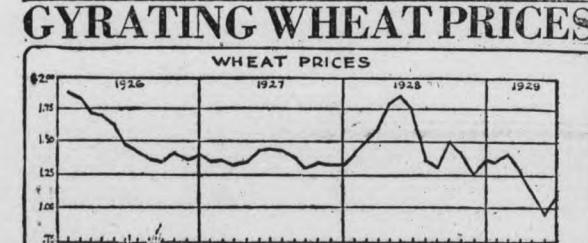

No. 11, Pyramid—395 yards, Par 4.

For the golfer who can carry the liver-shaped bunker in the immediate foreground, this hole is one of the very few which provide a breathing space for those who play the Jasper Park Lodge Course, Jasper National Park, Alberta, over which the Canadian and Western Canada Amateur Championships take place, Aug. 19-24, this summer.

As the Western Canada tournament is co-incident with the Dominion title event, lots of competitive golf is assured even for those who have high handicaps.

The photograph and the panel show the hole in detail with the yardages to scale below. Tournament play takes place from No. 1 (championship) tee.

GYRATING WHEAT PRICES

BY ALLARD SMITH
Vice President, The Union Trust Co., Cleveland

SENSATIONAL gyrations have marked the recent course of wheat prices. Starting the year at around \$1.40 a bushel, wheat had fallen to below \$1 a bushel by the beginning of June. This was the lowest point touched since 1914.

From its depressed level, wheat quickly rebounded, partly because of expectations of government relief. The recovery brought cheer to the stock market and to business which had feared the effect upon the purchasing power of the farmer of a continued drastic drop for wheat.

Actually, most growers of wheat had marketed their 1928 crop before the bottom dropped out of the market. The 1929 crop had not yet been harvested.

Those who were worst hit were speculators and holders of grain.

The decline in wheat was the result of heavy supplies throughout the world. Not only was the 1928 crop a bumper one, but prospects are that the 1929 one will be equally large. Production of wheat in surplus-raising countries in last year was 3,750,000,000 bushels, the largest on record.

The indicated area in wheat this year in 16 foreign countries is 95,443,000 acres against 95,402,000 acres in 1928. The United States area is estimated at 40,467,000 acres compared with 36,170,000 one year before. All in all, an abundance of wheat is in continuing prospect.

Germany, the United States, the United Kingdom, and France together exported \$800,000,000 worth of chemicals and allied products in 1928.

Sun rays most health giving have good methods of setting disputes, such as the length of from 280 to 320 m. (about half a meter) and are invulnerable to the eye.

The minimum resistance to the forward motion of the wings of an airplane is obtained with a thin wing which has a low lifting capacity.

OUT OUR WAY

—By WILLIAM

I WOULDN'T SAY A WORD ABOUT CIGARS—A PIPE OR EVEN CHEWING—BUT LISTEN—HAVE YOU EVER HEARD OF ANY SUCCESSFUL MAN OR ANY MAN WHO MOUNTS TO A ROW OF PINS SMOKIN' THEM THINGS? THINK—NOW—THINK.

THAT'S TRUE, ELLA! YOU MUST THINK OF YOUR FUTURE. DO YOU WANT TO PUT ALL YOUR LIFE OVER A WASH TUB? I'VE SEEN A FEW OF THE KIND WHO SMOKE THOSE—UH—A-A COFFIN NAILS.

S-S-S-T YOU COME AWAY FROM SEEN' SUCH THINGS.

Rabbi Speaks At Memorial Service

At the sundown service this evening the congregation of the Temple Emanuel will conduct a special thanksgiving service for the recovery of the King. During the entire illness of His Majesty the congregation have included in their religious exercises the special prayer for recovery as prescribed by the chief of the British Empire. The service will be held at 8 o'clock at the temple, Blanshard Street, and Rabbi Levy will conduct the service, taking for his subject, "The Prospect of an International Kingdom."

Rabbi Levy has just received news that Dr. Boris Bogen, recently elected to the International Board of Welfare Workers and for many years on the American Advisory Committee for Welfare, has passed away in California. Dr. Bogen also held the office as executive secretary to the Grand Lodge of the Independent Order of B'nai B'rith, International Order. He had recently spoken at the convention of the I.O.B.B. held in Oakland, where his reception from the delegates was overwhelming.

OBITUARY

Funeral service was conducted yesterday afternoon at 2 o'clock at Hayward's B.C. Funeral Company's Chapel for the late Jessie Berry. A large number of friends attended and many beautiful floral offerings were received. The hymns sung were "Jesus Calls Us" and "Abide With Me." The Rev. F. A. Chadwick officiated. Interment took place in Ross Bay Cemetery. The following acted as pallbearers: S. Henry, P. F. Hornby, A. Gibbald, W. H. Johnston, B. Thatcher and L. Whitlaw.

Many friends attended the funeral of the late William Robinson, which took place yesterday afternoon from McCall Bros' Funeral Home, Rev. F. A. Chadwick conducted the service, during which the hymn "Rock of Ages" was sung. Interment was made at Ross Bay Cemetery, with the following as pallbearers: A. Jewsbury, H. L. Ricketts, S. L. Ricketts and Neil Fraser.

NEWS IN BRIEF

The regular monthly meeting of the Lake Hill Community Centre will be held in the hall to-night at 8:30 o'clock.

Twenty members of the Arts Craft Guild of Chicago were in the city today between boats. They are routed on tour through the Canadian Rockies.

Next of the conventions to visit this city will be the North American Life Assurance Company's gathering, on July 15, 16 and 17. This will bring a large number of delegates to the city.

W. W. Van Haddock, facing three charges of fraud, was again remanded when the case was called in City Police Court this morning. The hearing was set for July 12. C. K. Courtney appears for the accused.

LOCAL SHOT SUCCESSFUL

Major E. J. Reid Reaches Second Stage of Feature Match in Shoot-off

In the shoot-off for the three remaining places in the qualifying round of the Lieutenant-Governor's match at Heale's Range this morning, Lieut.-Col. G. Whyte, British Columbia Regiment; Capt. C. Wilson, R. of C., and Sergeant-Major Reid of the Garrison Rifle Association were successful in winning the positions.

At the conclusion of the first stage of the match yesterday these three riflemen, along with Lieut. Walter Canadian Scottish, and Sergeant Lamb of the Vancouver Regiment, were tied with scores of 93. The thirty-six leading marksmen in the first stage earned the right to shoot in the second stage.

On five shots, Whyte, Wilson and Reid, along with Sergeant Lamb, scored 22's. On the sixth shot Whyte registered a bullseye, Wilson and Reid inners, while Lamb got an outer thus eliminating himself.

Conciliation Board For Railway Workers

Ottawa, July 5.—Hon. Peter Heenan, Federal Minister of Labor, to-day established a board of conciliation and investigation to deal with the dispute between the Canadian National Railway and Canadian Pacific Railway and conductors, trainmen and yard service men, members of the Order of Railway Conductors and of the Brotherhood of Railroad Trainmen.

The number of men affected directly is stated as 6,000, while 10,000 are said to be affected indirectly. Members of the board have been appointed as follows: Isaac Pitblado, K.C., and David Campbell, K.C., both of Winnipeg. The former was appointed on the recommendation of the employers and the latter on that of the employees.

A third member will be named by the other two.

UNEMPLOYED IN ALBERTA ASK AID

Edmonton, July 5.—Some 150 unemployed men now collected in this city paraded to the Alberta Parliament Buildings this morning and asked for Government relief. It was the first occurrence of this kind this season. The Government has never before been faced with a no-work problem so early in the year and will carefully review the facts of the case before reaching a decision or announcing a policy.

BROADCAST PARACHUTE JUMP

A client of his had sold 42,000 acres near Phoenix, Arizona, to the Goodyear Tire and Rubber Company, and in negotiating the sale, the client was asked to take over the organization of the development scheme, and in 1917 became vice-president and general manager of the Southwest Cotton Company, a subsidiary of the Goodyear corporation.

With the best cotton grown essential to the tire manufacturing industry the Goodyear Tire and Rubber Company faced a serious situation at the beginning of the Great War, when Great Britain placed an embargo on "skeletal" the long-staple cotton grown in Egypt.

RAVAGES OF BOLL WEEVIL

As a direct result of this embargo the Goodyear Company, thwarted by the ravages of the boll weevil, which played havoc with the short-staple crops of the San Islands off Georgia and South Carolina, decided to grow its own cotton in Arizona.

Mr. Parker was placed in charge of the venture, which embraced the acquisition of 42,000 acres of desert land in the Salt River Valley.

Within a comparatively short time the Pima Indian reservation on the Arizona desert, irrigated by the great Roosevelt Dam, was producing cotton of the finest long-staple grade.

With the boll weevil getting in its deadly work in the southern states the Goodyear Company, at the time the United States entered the war, largely controlled the production of cotton in the country.

Arizona cotton entered into the manufacture of grand blimps for the Allied war operations.

In 1921, during the deflation period, the price of cotton dropped from \$1.25 a pound to 35 cents, rubber correspondingly striking the toboggan.

With the termination of the war the Goodyear Company resumed its consumption of Egyptian long-staple cotton, but continued its production on the Arizona desert.

His work completed in 1921 Mr. Parker returned to the practice of law in California.

Stenographers To Caddy For Brokers' Golf

Victoria stock brokers and bond dealers will stage their first big annual golf tournament Sunday at the Uplands Golf Club.

Forty brokers to-day had filed entries for the competition. The tournament is being staged under N. W. Pirrie and H. F. Hepburn. A perpetual challenge cup has been put up for the competition. This cup will be held by the winner for one year. Besides this for the winner, there will be a duplicate cup to be kept by him for all time. A number of other prizes have been put up for the competition. The cups and prizes have been put on display in the windows of Maurice Carmichael's silverware store, Fort Street.

One of the features of the tournament will be that each broker will have a girl caddy. The girls of the staffs of the various financial houses have volunteered to do the caddying for the day and each broker has selected his favorite stenographer to pack his clubs. At the end of the play there will be a social gathering at the nineteenth hole, at which the winners will be announced, followed by a tea for the stenographer-caddies.

Besides the straight play competition, there will be contests for putting, hidden hole, approaching and driving, for all of which prizes will be awarded.

GULF ISLANDS APPEAL TO CALIFORNIANS

Edward F. Parker of Pasadena Contemplates Purchase of Island Property Here

Induced to Come North By Gordon Armstrong, Owner of Hill Islands, Near Sidney

"Here's your greatest asset!" Edward F. Parker, lawyer and investment banker of Pasadena, Cal., expressively threw out his arms and by the gesture embraced what he termed the "irresistible appeal" of this section of Vancouver Island. He lauded the attractiveness of this city and contiguous territory.

The Gulf Islands, to Mr. Parker, are a vista of beauty unsurpassed anywhere. "I hope one day to acquire one of those small islands and in a good deal of time with my family there," said Mr. Parker in explaining that, in his opinion, the Gulf Islands off Victoria eclipsed in grandeur and attractiveness the famous Thousand Islands of the Canadian east.

With his wife and two daughters, Mr. Parker has been staying at the Empress Hotel during the two weeks, and has seen a great deal of the country adjacent to this city.

DIRECTED HERE BY FRIEND

A personal friend of his, Gordon Armstrong of Pasadena, owns the Hill Islands off Sidney. "Come along and see it," urged Mr. Armstrong one day in Vancouver. Mr. Parker came and he is so enamored of the island property that he is contemplating an investment in a similar property himself.

"We have nothing just like it to the south of the boundary," he exclaimed in giving one of the reasons why so many Californians were beginning to take more than casual interest in Vancouver Island.

While in Victoria Mr. Parker this week met John Miller, president of the Southern California Edison Company, who was here on his private yacht, and who was immensely attracted by the cruise he had undertaken in British Columbia coast waters.

LAWYER AS COTTON GROWER

Mr. Parker has had a most interesting and successful career. He recalls with delight his experience after leaving college as a newspaperman in California. He studied law and in practicing that profession the way was opened to him to become the directing head of a large cotton plantation in Arizona.

A client of his had sold 42,000 acres near Phoenix, Arizona, to the Goodyear Tire and Rubber Company, and in negotiating the sale, the client was asked to take over the organization of the development scheme, and in 1917 became vice-president and general manager of the Southwest Cotton Company, a subsidiary of the Goodyear corporation.

With the best cotton grown essential to the tire manufacturing industry the Goodyear Tire and Rubber Company faced a serious situation at the beginning of the Great War, when Great Britain placed an embargo on "skeletal" the long-staple cotton grown in Egypt.

RAVAGES OF BOLL WEEVIL

As a direct result of this embargo the Goodyear Company, thwarted by the ravages of the boll weevil, which played havoc with the short-staple crops of the San Islands off Georgia and South Carolina, decided to grow its own cotton in Arizona.

Mr. Parker was placed in charge of the venture, which embraced the acquisition of 42,000 acres of desert land in the Salt River Valley.

Within a comparatively short time the Pima Indian reservation on the Arizona desert, irrigated by the great Roosevelt Dam, was producing cotton of the finest long-staple grade.

With the boll weevil getting in its deadly work in the southern states the Goodyear Company, at the time the United States entered the war, largely controlled the production of cotton in the country.

Arizona cotton entered into the manufacture of grand blimps for the Allied war operations.

In 1921, during the deflation period, the price of cotton dropped from \$1.25 a pound to 35 cents, rubber correspondingly striking the toboggan.

With the termination of the war the Goodyear Company resumed its consumption of Egyptian long-staple cotton, but continued its production on the Arizona desert.

His work completed in 1921 Mr. Parker returned to the practice of law in California.

LOCAL BOYS WIN RACES AT TACOMA

Connorton, Fell and Nicholls Outstanding Stars of Local Contingent

Took Five Firsts From Pick of Washington Athletes; Connorton Moves Fast

Flashing to the finish less than eight inches ahead of Tatum, Tacoma sprint ace, Cyril Connorton, local flash carried off first honors in the 100-yard dash held at the American Legion meet in Tacoma yesterday. He also won the 220-yard event although he pulled a tendon in his leg 100 yards from the finish in this race.

Arthur Thornton Fell, high and low hurdler, carried off first honors in both the 120 and 220-yard events. Len Nicholls, Normal School track champion, also won another first-place for Tacoma, setting a mark of nineteen feet six inches to win the running broad jump.

Fell, tired after his two hurdle events, was only able to take second place in the high jump, while he placed third in the broad event.

Nicholls also placed in the quarter-mile race, finishing third against a fast field.

Bruce Humber, coming young sprinter, put up a good showing, but was only able to get third place in the 220-yard sprint.

MADE FAST TIME

Getting away to a fast start Connorton led the field to the finish in the 100-yard event and breasted the tape eight inches ahead of Tatum. He was clocked in 9 9-10 seconds, which is good time. "Chuck" Copeland, another local runner, took third place.

Although the Victoria contingent carried off the majority of firsts, Tacoma collected enough points in second and third places to give them a 44-33 victory over the local squad.

After running fast stretches in the inter-city relay, Victoria boys were nosed out by the Tacoma runners who knew how to cut in on the corners of their home track.

From start to finish Archie McKinnon's boys put up good exhibitions and merited the applause they received from their United States rivals and spectators.

TRADE BOARDS OF ISLAND MEET HERE NEXT WEEK

Resolutions For Annual Gathering Before Chamber Directors

Resolutions to be offered at the annual convention of the Associated Boards of Trade of Vancouver Island in Victoria next week, were considered by directors of the Chamber of Commerce to-day.

The resolutions on hand for the convention at the present time number twenty-two and cover a variety of subjects including fishing regulations, power leases, game protection, motor vehicle control, timber preservation and other matters.

The Chamber's delegates to the meeting are J. W. Spencer, B. C. Nicholas and J. O. Cameron, in whose hands the decisions regarding the resolutions were left.

The convention will open on July 11 and the delegates, numbering about thirty, will be entertained at luncheon that day by the Rotary Club. In the evening the Victoria Chamber will be hosts at dinner in the Chamber Cafe.

On the morning following the dinner will be guests of the B.C. Electric Railway Company for a trip over the power plant at Jordan River.

Several minor items were dealt with by the directors of the Victoria board to-day.

HOME PRODUCTS FAIR TO LAPSE

Chamber Directors Learn No Space Available at Fall Fair

The annual Home Products Fair held by the Victoria Chamber of Commerce will not take place this year owing to lack of space in which to display exhibits at the Provincial Exhibition.

Directors of the chamber learned to-day in a communication from the B.C. Agricultural Association, the board was notified that funds were not forthcoming for the construction of an extra building at the Willows ground to house the show.

James Parfit, chairman of the chamber industrial group, stated the fair would probably have to lapse this year. In the past it has been held in the spring but owing to a lack of interest at the beginning of the year it was decided to postpone the show until the fall when it was hoped to organize it on a larger scale.

Officials of the B.C. Agricultural Association interviewed the Mayor and council in the hopes of securing a grant of \$10,000 for the erection of a special home products building, but were informed that no appropriation could be made this year. The money may be forthcoming next year.

PHILADELPHIA INVITES PEACE CONFERENCE

Mayor Suggests World Delegates Gather There in July, 1930

Philadelphia, July 5.—A world peace conference to be held in Independence Hall, Philadelphia, July 4, 1930, was suggested by Mayor Harry A. Mackey in an address at Independence Day exercises here yesterday.

Mr. Mackey made the suggestion at the city's official observance of the holiday, at which were gathered many representatives of the city, state and federal governments, members of the fifty-five local American Legion Posts and thousands of citizens.

"I am of the opinion," the mayor said, "that the time has arrived for a general peace conference, to be participated in by representatives of the nations of the world, and particularly those of Latin-America. I believe the time is propitious for world peace, but for such a programme to be effective there should and must be commercial and industrial activity."

He referred to the proposed visit of Premier Ramsey MacDonald of Great Britain to confer with President Hoover on naval disarmament, and added:

"On this spot, made sacred by the stirring events of the last century and one-half, I make the suggestion that the conference between President Hoover and Premier MacDonald be supplemented by a meeting of the leading world representatives."

BEST MINDS INVITED

"I know of no edifice in the world in which it would be more appropriate to hold such a conference than Independence Hall. Here could assemble the best minds of the world. They could, I am sure, draw up a document which would go down in history, together with the Declaration of Independence, as a guarantee of perpetual peace among the nations of the world."

"I recognize the fact, as revealed by history, that no great world-wide movement can successfully appeal to the heart life of the people unless it has a solid moral foundation and a spiritual background."

"Therefore, I believe the cause of universal peace can be materially advanced by following this proposal: peace assembly with a conference of the representatives of every religious faith in the world, held at Independence Hall."

"I suggest this meeting, which

MAKE PLANS FOR TOURNEY

Mayor Ansbach Will Welcome Visiting Lawn Bowlers to City in August

The opening of the Greater Victoria lawn bowling tournament to be held the week of August 5, will be featured by a monstrous community lunch in Beacon Hill Park at which the local bowlers will be hosts to the visiting competitors. The visitors will be welcomed to the tournament by Mayor Ansbach.

In an effort to obtain a record entry list for the tournament the committee in charge has distributed "Visit Victoria" folders to all parts of the continent. Contributions towards the prize fund have been received from the corporations of Victoria and Saanich, while the members of the affiliated bowling clubs of Greater Victoria have promised substantial support.

There are eight competitions carded for the tournament and all entries should be sent to G. Vallance, Hampton Hall, before July 27.

GOVERNMENT STRIKES T.B. MEN OFF ROLL

(Continued from page 1)

The closing of the canteen at the sanatorium as ordered by the Provincial Secretary, Hon. S. L. Howe, has also aroused considerable resentment in Kamloops, as this too employed four former patients under conditions conducive to a continuation of good health. Exception is taken to reports that the canteen offered unfair competition to merchants of Kamloops as the institution is eight miles from the city of Kamloops and only such articles as cigarettes, tobacco, writing paper and other merchandise which would make no great inroads into the regular business of Kamloops merchants were handled.

OTHER CHANGES

The other changes announced in The B.C. Gazette include justices of the peace, coroners, magistrates, medical health officers, government agents, court clerks and registrars.

The dismissals are as follows:

David William Strachan, as farm superintendent, Tranquille Sanatorium, from June 30.

Alexander Whitecross, as bursar, Tranquille Sanatorium, from June 30.

Frank Urquhart, constable, Provincial Police, as district registrar of births, deaths and marriages, and registrar under the Marriage Act for the registration district of Pitt Meadows, from July 1.

J. H. Hamilton, M.B., of Revelstoke, as medical health officer for the unorganized district around Revelstoke, and medical inspector of schools for the same district.

Leslie Wightwick, clerk, Nelson

New Ambition For All Past Forty

Says Vigor, Energy, Ability
and Healthy Vitality
Should Not Be Con-
fined to Youth-
ful Days

Most people, from childhood, carelessly disregard and neglect their nerves. At forty, or thereabouts, they begin to pay the penalty. They lose ambition, life's youthful pleasures seem to pall, they are easily fatigued, concentrate, have fits of blues and trembling, get nervous headaches or dyspepsia and lose their pep and full, firm grip on life.

Depleted nerve force is dangerous, and nerve prostration awaits those who disregard its early warning. But now, thanks to modern medical science, nerve force may easily, safely and quickly be brought back to normal so that men and women of forty, fifty or even older, may again enjoy the youthful nerve strength, vigor and energy of half their age.

A preparation known as Erbac (double strength) is now being stocked and highly recommended by leading druggists everywhere. Not a cure-all, gland treatment, or habit-forming stimulant, but a positive nerve food and vitalizing agent. A twenty-days' use of Erbac (double strength) is guaranteed to bring a tremendous increase in nerve force and energy to any man or woman past forty, or its cost will promptly be refunded.

No fairer offer was ever made. To prove you can be young—stay young strong—vital—costs but 10 cents a day. If you succeed—not a penny if you fail. Have you the courage to make the test? Then ask your druggist for a sealed package of double strength Erbac and begin to-day.

NOTICE TO READER—Above money-back guarantee is absolutely genuine and legal. Manufacturers are responsible.

agency, as provincial collector for the Nelson assessment district, from June 17.

Appointments announced are as follows:

Trevor Lotherington Williams of Port Clements, to be a justice of the peace in and for the Province.

Edward Taylor Cope of Atlin, to be a coroner in and for the Province.

Edward Taylor Cope of Atlin, to be a stipendiary magistrate in and for the County of Prince Rupert.

John Ford Burne of Kelowna, to exercise the jurisdiction conferred by the Small Debts Courts Act within that portion of the County of Yale embraced in the city of Kelowna and a radius of fifteen miles therefrom.

Samuel King Fitzpatrick of Oliver, to be a notary public in and for the Province.

Edwin Tomlin, Roland Powell and H. C. Holmes, major, all of the city of Victoria, to be members of the board of management of the Provincial Royal Jubilee Hospital for one year, from July 1.

William Jackson of Brigade Lake, to be farm manager of Tranquille Sanatorium, from July 1.

Herbert Ridley Townsend, to be provincial collector for the Nelson assessment district, as and from June 17.

Alfred McQueen, assessor, Kaslo, to be deputy government agent, Kaslo; deputy commissioner of lands, Slocan land recording district; deputy water recorder, Kalso water district; deputy gold commissioner, Alnsworth, Slocan and Trout Lake mining divisions; deputy gold commissioner, Slocan City mining division; deputy district registrar of vital statistics, registration district of Kaslo; deputy registrar of voters, Kaslo-Slocan electoral district; registrar under the Marriage Act, at Kaslo, during the absence of Ronald Hewat, the government agent, commencing June 12.

John Cooper McFarlane, municipal clerk, Port Haney, to be registrar under the Marriage Act at Port Haney, as and from July 1.

John Cooper McFarlane, municipal clerk, Port Haney, to be district registrar of vital statistics for the registration district of Port Haney, as and from July 1.

John Ford Burne of Kelowna, stipendiary magistrate in and for the County of Yale, to exercise the jurisdiction conferred by the Small Debts Courts Act within that portion of the County of Yale embraced in the city of Kelowna and a radius of fifteen miles therefrom.

H. Clifford Irving, to be deputy district registrar of the Supreme Court, Nelson registry, and deputy registrar of the County Court of West Kootenay, holden at Nelson, as and from June 17.

T. C. Holmes, M.D., L.M.C.C., of Burns Lake, to be medical health officer for Burns Lake and district, and medical inspector of schools for the following schools: Alexander Manson (Ootsa Lake), Bickle (Tatalrose), Burns Lake, Decker Lake, Forestdale, Francois North, Francois South (Duncan), Grassy Plains, Nadina River, Palling, Rose Lake, Sheraton, South Park, Streatham, Tchesinkut Lake, Tintagel, Uchina Valley and Wistaria.

Arthur Llewellyn Jones, M.D., C.M., of Revelstoke, to be medical health officer for the district around Revelstoke, and medical inspector of schools for the following schools: Albert Canyon, Arrowhead, Baston, Begbie, Big Eddy, Bowie, Cartier, Craigellachie, Crawford Creek, Galena Bay, Glacier, Greenside, Hall's Landing, Malakwa, Solisqua, Three Valley, Tonkawatie, Trout Lake and Mount McPherson.

CLUB WILL NAME HOLES ON LINKS

E. D. Todd, well-known member of the Victoria Golf Club, has donated a box of golf balls as a prize to be awarded to the member, man or woman, suggesting the most suitable name for each hole on the Oak Bay links. Lists must be sent or handed in to the secretary not later than July 31. The general committee will decide the names to be adopted and will announce the name of the winner.

VOILE LINGERIE

Hand-made lingerie in printed voile, lace trimmed, is very summery looking. Worth uses a black and white voile for a stunning combination, with wide ecru lace trimming it.

SAD NEWS OF SON'S DEATH AT JOURNEY'S END

Charles E. Morris Motors
From P.E.I. and Few Days
After Son Killed

A gruelling 4,890-mile journey by automobile from Prince Edward Island to Victoria which ended with the receipt of news of the death of his son in an aeroplane accident was the lot of Charles E. Morris, who is now residing at 2364 Thompson Avenue in this city.

Mr. Morris is the father of Dr. William D. Morris, who was killed when the plane in which he was a passenger crashed into the St. Lawrence River on June 20.

The father had just completed the long journey from the east when the tragedy occurred. He covered the 4,890 miles in twenty traveling days or an average of 240 miles a day and upon arrival here the strenuous trip had its effect upon him and he was unable to return East to attend the funeral.

Mrs. Morris who has lived in Victoria since April of this year, was present at the service, however, and has forwarded the following account to this city:

"Representatives of the medical profession and of aviation in Montreal attended the funeral at the William Wray Chapel, of Dr. William Morris, the young surgeon who met death in an aeroplane accident in the St. Lawrence River. Wreaths were sent from the officers and staff of the Verdun Protestant Hospital, his conferees at the Medico-Dental building, the International Airways of Canada Limited, Vickers Limited, and other companies.

"Rev. Dr. Malcolm Campbell con-

TO-DAY'S GRAIN MARKETS

Public Rush Into Wheat On Buying Side

Winnipeg, July 5.—Wheat market again. Orders have been coming in so fast from points on the prairies that brokers could scarcely record them. The orders are all buyers.

Dry weather, cut and wire worm reports in scores of localities through Saskatchewan, along with frost damage, have made buyers of the small merchants and professional men across the country, who are in the habit of taking flares in the market. Prices over \$1.50 a bushel are being freely predicted on this market and reports are issued that the big bulls have tightened their grip on the situation.

(By Branson, Brown & Co. Limited)

Winnipeg, July 5.—Wheat prices broke from 3 1/2 to 4 1/2 at the start this morning with heavy liquidation going on based on reported rains in western Canada and weak Liverpool cables. However, there was heavy absorption on the break as many had been looking for this to occur and at the close of the first hour of trading all the opening loss had been recovered.

Later the rains proved to be only showers and were of little material benefit, and the market again advanced reaching the high points of yesterday. Trade volume was very large, but it was extremely difficult to locate the buying as orders appeared to be coming from all parts of the prairie and from all interests except exporters and sea-board houses.

Commission houses were undoubtedly good buyers with the outside and country public coming in to the market in a small way. There was profit taking on the scale up and the pool were crowded with being moderate sellers of October. There was nothing doing in export business overnight or this morning, and the demand for cash wheat was slow. Offerings were moderately liberal. Several top grades were unchanged, but were on the lower grades, being six cents off.

Unfavorable reports continue to come in from the country, all indicating serious damage and the crop still deteriorating in large important areas. Without good rains this week-end the situation will be critical and much higher prices are anticipated.

Europe so far has paid no attention to the situation that has developed in this country, but they will likely be forced to come into the market at higher levels. Winnipeg futures eased at the finish on profit taking and closed July 1929, October 1929, December 1929, or 1/2 to 1/4 lower.

Coarse grains: Outside of a little speculative buying there was not much doing in the coarse grains. Offerings were light, but no real consumptive demand was in evidence. Corn, half to one and one-eighth higher, barley half lower to unchanged, rye half to one and one-quarter lower.

Morgan nodded thoughtfully. "And when she couldn't land you she nursed a grudge against you. Right? ... I thought so. I'm warning you, Bert. Be careful. Bert, you're a confirmed lady-killer. This is a little worse, though, than the breach-of-promise suit I was joking about last night."

And Morgan looked so worried that Nan's heart ached for him.

Crawford misinterpreted the look on his friend's face. He leaned far across the desk, to fix Morgan compellingly with his light-blue eyes. "Old man, before we go a step further, you believe in my innocence, don't you?"

Morgan stretched out his hand to grasp the one Crawford was offering dramatically. "I do believe you're innocent, Bert. I'm staking my professional honor on your innocence. I've never, since I was admitted to the bar, defended an accused person of whose innocence I was not convinced."

If you should be proved guilty, beyond the shadow of a doubt, I can tell you right now, Bert, that you would do me more harm than you can well imagine."

"Just play square with me, Bert. Tell me the whole truth, no matter how much it may go against the grain, or how damaging it may look, and I'll get you out of this mess. It's humanly possible. Not that I think they have a case against you that will result in an indictment," he added reassuringly, as Crawford's beaming smile faded.

"And you, Nan?" Crawford, blithe again, turned to the girl, whose cast-down eyes were upon her notebook. The ringing of the telephone saved Nan from answering. She took the call at her own desk, then, when she picked up the letter of resignation which she had sworn to herself to present to John Curtis Morgan that morning. Slowly she tore it to bits.

CHAPTER IX

Within ten days the grand jury had met and returned indictments against Herbert S. Crawford and Roy Bland, charging them with the embezzlement of nearly \$250,000 of the funds of the Mid-West Packing Company, of which the two had been president and treasurer respectively.

Roy Bland was still a fugitive from justice. A check-up at the union railroad station revealed that a man answering this description had bought a one-way ticket to New York on the night that Bland was supposed to have left for Chicago, on business for his firm.

But since he had had ten days before the audit of the books had revealed the shortage, it was generally conceded that Bland had immediately left New York by steamer for parts unknown. Police radios to all ships at sea had resulted in exactly nothing, but in the interval Bland had had time to land and disappear.

Crawford's trial was set for December 10, a date which suited John Curtis Morgan well enough, since there was amazingly little he could do by way of preparation.

"They can't have anything on me, Jack, because I haven't done anything wrong. I never drew a penny of that money out of the bank; I never touched a penny of it after Bland drew it; I never authorized his

drawing it, and did not know that he had done so. I haven't a dollar in the bank that I can't account for legitimately."

The first time he made this sweeping statement Morgan interrupted: "How did it happen that Bland, as treasurer, could sign and cash checks for such huge amounts? It's usual, I believe, for two signatures to be required on all corporation checks."

"When we first organized, that was the case," Crawford acknowledged readily. "My signature and his were required by the by-laws. But I had to be out of town much that day, I asked the board of directors to amend the by-laws so that Bland's signature alone was enough. He was bonded, you know. The company won't lose the whole \$250,000."

It was a newspaper story that revealed the fact that the cashier of the bank, upon Bland's presentation of the last check for \$100,000, had hesitated to cash it and had taken it upon himself to telephone Crawford for additional authority.

"Wolfe, the cashier, says that he spoke to you personally on the phone and that you O.K.'d the check," Morgan told Crawford. "That is one of the prosecution's trump cards, of course. What about it, Bert?"

"The blue eyes looked blank with surprise, but utterly untroubled. "That's simply not true, Jack. I've never spoken with Wolfe over the telephone in my life. I've talked with him at the bank, of course, but he never got me when he called—if he did call."

"I'm afraid we can't convince a jury that the cashier of the First National Bank is a liar. The bank's records show that all of the money was drawn after the first of November. Bland gave himself plenty of time before the next monthly statement was due. According to Wolfe, the check about which he phoned you was presented by Bland in person on Wednesday, November 9. A pretty good customer, that Bland. The check was presented at five minutes of three, Wolfe says. Get your business engagement book or your desk calendar, Bert, and see if you have an alibi for that time. If you were not in your office between 2 and 3 o'clock, or if someone was with you who can testify in your behalf, we'll spike their biggest gun."

So far as newspaper accounts were concerned, however, there was one bit of disappointment. Gladys Payne, Bland's erstwhile secretary and fiancée, chattered not at all of publication, and it was largely on Miss Payne's testimony that the indictment had been secured, if rumor was to be trusted.

The day after the bank cashier's story appeared in the paper Crawford admitted to Morgan that, so far as his desk calendar showed, he had had no engagement between 2:30 and 3 o'clock on Wednesday, November 9.

"But of course that doesn't mean I was necessarily in my office," Crawford pointed out. "Good Lord! How can I remember what I was doing that particular half-hour? There was nothing to fix it in my mind, as there would have been if Wolfe had actually talked to me on the phone."

Nan was present at the conference. "Your switchboard operator always asks who's calling, doesn't she? Perhaps she will remember whether you

were in or not. She would call your private office before putting the call through, of course."

Morgan shook his head gloomily. "Brainard will already have got hold of her. But we may as well ask her to come over. Were you and she good friends, Bert?"

Bert Crawford flushed, then laughed. "A dirty crack, Jack. Always suspecting me of shelling! But seriously, little Alice Belton is a friend of mine, I believe. Let's have her over."

Alice Belton, a pert little flapper, with a boyish black bob, arrived at the lawyer's office at 5:15.

"Ooh, I'm scared to death!" she told Nan delightedly. "I've got to go to the district attorney's office to-night, too! Isn't it dreadful?"

"To-night?" Nan echoed. "Haven't you already seen Mr. Brainard?"

"Good girl!" Bert Crawford had opened the door of Morgan's private office and stood beaming at the little switchboard operator. "Come on in, Alice. My attorney isn't here, but we'll have a nice visit while we wait for him."

"You won't let them be nasty to me if I have to go on the witness stand will you, Mr. Crawford?"

"You just bet I won't, Alice. I'll—"

The door closed on them, and Nan, without a moment's hesitation, reached into the deep lower drawer of her typewriter desk, pushed a button on a black metal box which was fastened to the drawer, and lifted a queer sort of receiving instrument to her ear.

Morgan had had the listening-in device installed more than two years before. It had been invaluable as a means of obtaining verbatim reports from the lips of skittish witnesses, but had no idea that their words were being heard by anyone except Morgan himself.

Drawing her notebook forward hastily, Nan began to jot down in shorthand the conversation that was taking place in the private office.

Alice Belton—Quit, Bert! I'm mad at you—Oh-h! You're so strong! But honestly, I am mad at you—

Crawford—What about, Peter Pan? Lord, you're cuter than ever!

Alice—Aw, you can't kid me. ... Quit, Bert.

I've had some pretty good times, haven't we? Well, honey, you can do a whole lot for me, a mighty big favor, if you will—

Isn't it? Honestly, Bert, you could knock me over with a—

Crawford—I know, honey! Listen, and listen hard: Wolfe, the cashier of the First National, says he called me and talked to me on the phone on Wednesday afternoon, November 9. I never received any such call—get me?

(To be continued)

Dr. John G. Hibben Speaks in London

London, July 5.—Dr. John Grier Hibben, president of Princeton University, told the American Society at its annual Independence Day dinner here last night that "a patriotic responsibility rests upon the people of Great Britain and the United States."

"The world expects a complete understanding between these two powers," he said.

"While to-night we celebrate our independence as a nation," he said, "I deplore the fact that there are certain people in the United States who would interpret our independence as meaning a complete freedom from all relations to other peoples on the earth."

"They fail to realize that new world in which we live is a world of common interests and reciprocal obligations."

"In the days of 1776 there was constant deference to the rights of man. These rights have so far been fully constituted and maintained. At the present day we should turn our thoughts away from the rights to the duties of man, and we dare not shrink from performing our duties of citizenship. These duties involve an active interest and an exhibition of international responsibilities."

RETIRED PASTOR DIES

Vancouver, July 5.—Rev. William Ross, eighty-one, retired Presbyterian minister, died at his home here yesterday. Before coming to British Columbia twenty-one years ago he was for thirty-three years minister at Prince William, N.B. He was a graduate of Dalhousie University.

\$20,000 FIRE

Lintlaw, Sask., July 5.—Fire that completely destroyed the lumber yard of the White Bear Lumber Company here last night caused damage estimated at \$20,000. The cause of the blaze is unknown.

So crisp you can hear it crackle!

RICE KRISPIES is the new Kellogg cereal that's attracting so much attention. You've never tasted such a different treat.

Nourishing rice. With a flavor like toasted nutmeats. And as for crispness—it actually crackles when you pour on the milk or cream.

Surprise the family with Rice Krispies for breakfast tomorrow.

And don't forget lunch. Give the children a bowlful with milk for the evening meal. Healthful and easy to digest.

Rice Krispies make wonderful macaroons and candies. Put them in soups. Serve them buttered, like pop corn.

Phone your grocer for a red-and-green package. Made by Kellogg in London, Ontario.

Kellogg's

KRISPIES

Shirley

Mrs. H. F. Anderson and her brother and sister-in-law, Mr. and Mrs. George MacLachlan, from San Francisco, Cal., visiting for a few days.

Mr. and Mrs. Norvil Milligan, accompanied by Mrs. Milligan, Sr., visited friends at Point Roberts, Wash., on July 4.

A large crowd attended the joint school picnic held recently at Porter's Beach, Ote. Point. The schools joining being Jordan River, Shirley, Ote Point, North Sooke and Goldstream.

There was keen competition in all the races. Shirley coming first with forty-three points, North Sooke second with thirty-seven and Goldstream third with twenty-three points.

The tiny tots who didn't win in their races were given a small gift each, so they all went home quite pleased.

In the grown-ups races prizes were

Smart Doings of Animals

CHICKENS KNOW HOUR OF MISTRESS'S RETURN

Oscar Anderson, the landscape painter of Gloucester, Mass., used to have a pet bantam rooster that ruled a flock of chickens he kept.

Mr. Anderson's daughter, Edith, was accustomed to feed the chickens and became a great favorite with the bantam. As a result he always brought the flock to meet her when she returned from school each afternoon.

No matter where they might be the rest of the time, the chickens always walked promptly up the hill at the right hour to greet their young mistress. But they never made the mistake of going on the days when she was not in school.

—By DWIG

SCHOOL DAYS

FRIDAY JULY 5

Florence Winnifred Thorne, R.M.D., No. 1, Rocky Point, Victoria, B.C. (3).
Bernice Lillian Atkins, 1219 North Park Street, Victoria, B.C. (2).

ENGLISH BOY LOVED TO VISIT WITH THE GYPSIES

George Borrow, an English lad, was a problem to his parents. They thought he was dreamy and stupid. The only thing that seemed to interest him in school was the study of foreign languages. He didn't seem to be able to learn anything else. Strange people fascinated him. If ever there was a horse fair anywhere near enough for him to walk, or to beg a ride on a farmer's cart, he

went. In those days in England horse fairs were great events, and there were always whole tribes of gypsies who came to them, for gypsies, as everyone knows, have always been horse traders. The gypsies came in their wagons and made their camp near the grounds on which the fair was being held. George used to wander about among them, and because he was a likeable lad they would talk to him. He began to pick up a few words of their queer language, called Romany, and before long he could even carry on conversations in it. When the lad grew up he became a writer, and won world-wide fame for his stories about the gypsies, as well as his studies of their language. He was born on July 8, 1803, and was said to know more about gypsies than any man not born of their race.

BEDTIME STORY

Uncle Wiggily's Lemonade

(Copyright, 1929, by McClure Newspaper Syndicate)

By HOWARD R. GARIS

"My goodness! What's goin' on?" asked Uncle Wiggily in surprise one morning as he slid on the end of his stubby little tail down the banister railing of the stairs. He saw his wife and Nurse Jane hopping around in the different rooms with rags in their paws. "What is going on?" Uncle Wiggily wanted to know.

"You might better ask what is going on," said Nurse Jane. "Well, what is going on then?" asked Mr. Longears.

"The dust is going off the furniture," said the muskrat lady housekeeper. "We are getting the bungalow nice and clean."

"What for?" asked Uncle Wiggily. "Seems to me it's clean enough."

"Not for company," spoke his wife. "Oh! so you're going to have company?" said Mr. Longears.

"Just a few lady friends," explained his wife as she flicked some dust off the top of a table. "Mrs. Twistytail, Aunt Lettie, Mrs. Wobblewobble and a few others."

"That will be nice," said Uncle Wiggily. "Well, the bungalow will be no place for me with a lot of lady animals around. So if I do it, take it, breakfast I'll hop off to the woods and stay all day. How long will your company stay, my dear?" he asked of his wife.

"Oh! I think they'll be gone by early afternoon," said Mrs. Longears. "They are going to stay to lunch and about two hours after that. So by 3 o'clock they should be gone."

"I'll hop home after three, then," said Mr. Longears.

Nurse Jane and Mrs. Longears went on knocking dust off the furniture and Uncle Wiggily hopped out to the kitchen where Nurse Jane had set his breakfast place.

After eating, Uncle Wiggily hopped to the woods, sneezing now and then, for some of the dust of seeking one. Then he looked at his watch and saw it was after 3 o'clock so he said:

"Those ladies will be gone by the time I get back home, bungalow. I may as well hop home."

But when he reached his bungalow he heard many voices talking and he knew the lady animals were still there. He looked at his watch again and then peered in the window at the kitchen clock and saw that he had forgotten about daylight saving and that he had come home too early. The company had not yet left.

"Well, I'm here so I might as well stay," thought Uncle Wiggily, who, by this time, had hopped into the kitchen, not wanting to go in the front way and meet all the company.

Then Uncle Wiggily saw on the table some lemons, glasses, a pitcher and a squeezer.

"I guess Nurse Jane intends making lemonade for the company," said the rabbit gentleman. "After they drink that they'll go home, I suppose. Now I guess I can make the lemonade as well as Nurse Jane. I'll do it, take it in to the ladies, pass it around and then they'll go home and my bungalow will be peaceful and quiet."

So Uncle Wiggily squeezed the lemons, put the juice in a pitcher and water, stirred in a lot of sugar and carried the lemonade into the front room with glasses on a tray.

"Oh, it's Uncle Wiggily!" quacked Mrs. Wobblewobble, the duck.

"So glad you came in!" bleated Aunt Lettie, the goat.

"Have some my lemonade," invited Uncle Wiggily. He passed the glasses around. Nurse Jane and Mrs. Longears thought it was very kind of him. But Aunt Lettie had no sooner taken a drink than she yelled: "Faugh!"

And Mrs. Wobblewobble quacked:

To-morrow's Horoscope

SATURDAY, JULY 6, 1929

Astrologers read this as an uncertain day in planetary direction. It is a time more favorable for play than for work.

There is a sign believed to warn that aviation may be attended by extraordinary dangers while this planetary government prevails.

While this sway is mildly helpful to trade and commerce, it is most favorable to routine business.

The judgment of men and women may be unreliable under this direction of the stars. It should not be trusted in finance.

There is a sign that is supposed to encourage gossip and many scandals are foretold. International sensation is foretold.

As the tendency under this rule is to believe the worst of one's fellow beings the appearance of evil should be avoided.

Reform movements that recognize responsibility toward the rising generations will multiply in the next few months, it is foretold.

Study of the life of the body politic will be widespread, and science will stress the importance of training the young to walk in paths of righteousness, the astrologers prophesy.

Deceit and misrepresentation may be more than usually prevalent to-day. Truth must be encouraged to prevail under this planetary government.

As the new moon of the month is believed to strengthen the British nation and to encourage closer relations with the United States, important diplomatic moves are indicated, astrologers announce.

The spirit of co-operation and co-ordination of world interests will be strong. It is pressed, and history is to record new chapters of supreme interest.

Persons whose birthday it is have the augury of a year in which there will be much pursuit of pleasure. Change is indicated.

Children born on this day probably will be restless and exceedingly fond of travel. Many new officers are born under this sign.

John Paul Jones was born on this day, 1747. Another who claimed it as a birthday was Bishop Alonso Potter, 1800.

(Copyright, 1929)

"Wah! Wah!" And Mrs. Twistytail, the pig lady, loudly grunted: "Wuff! Wuff!"

Then all the company of ladies dropped their glasses of lemonade, gazed angrily at Uncle Wiggily and rushed out of the bungalow.

"Why, whatever is the matter?" asked the surprised rabbit gentleman. Nurse Jane took one taste of her lemonade and screamed: "Salt! Salt! You put salt instead of sugar in the company lemonade. Oh! How could you, Uncle Wiggily?"

It was a week before Uncle Wiggily could make his wife and Nurse Jane believe that he had not meant to do it. And it was another week before the duck, goat and pig ladies would speak to Mrs. Longears.

But mistakes will happen in the best of families. And if the telephone will talk nicely to the pussy cat and tell it not to scratch the little dog's tail, I'll make up a story about Uncle Wiggily's buzzy fan.

DOUKHOBORS ON PRAIRIES BLAMED FOR FOUR FIRES

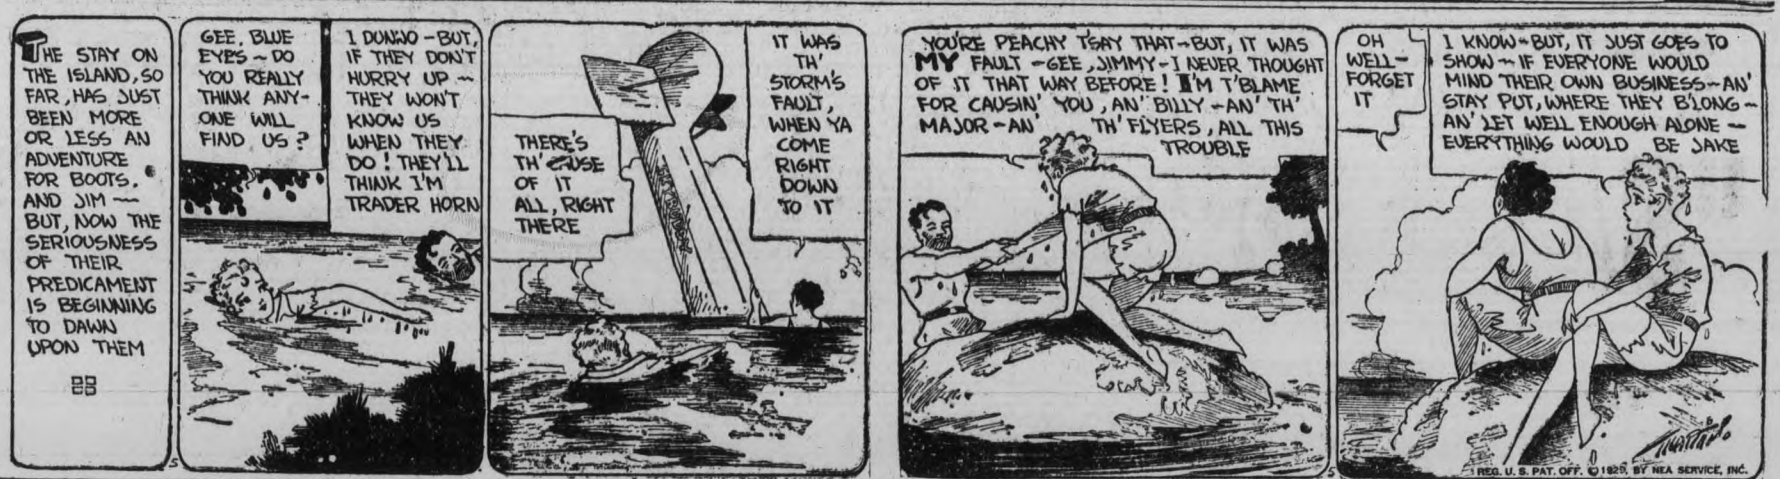

Saskatoon, July 5.—One schoolhouse in the Blaine Lake district is in ruins and three others were badly charred as a result of fires between Wednesday night and the early hours of this morning, and officers of the Royal Canadian Mounted Police are conducting a thorough investigation, strongly suspecting arson.

About fifty Doukhobor men and women were brought to Saskatoon and police state questioning of nearly half of them failed to connect them with the burning of the schoolhouses. The authorities do not believe, however, that the fires were mere coincidences, declaring signs of use of coal oil and straw were clearly visible.

Allowed to depart after questioning by the police, the Doukhobors went away singing, cheering and laughing at their erstwhile captors.

Most of them came from Langham, Sask., and others from Veregin.

NEW ENVOY MEETS NEW PREMIER

They called him a firebrand, and now just look what he's become! The smiling fellow on the right is none other than Charles G. Daves, United States Ambassador to Great Britain, and he is shaking hands with another happy gentleman, Premier Ramsay MacDonald. The new Premier and the envoy are exchanging congratulations at their first meeting in Forres, Scotland, where they discussed naval disarmament.

BERRY PRICES GROW FIRM AS CANNERS BID

Preserved Saanich Strawberries in Demand to Replace Peaches

Canners Find Magoon Berries From Saanich Have Ideal Qualities

Processed Saanich strawberries will probably earn higher prices for the growers than had been originally anticipated when the Provincial Government was approached for a loan, H. E. Tanner, manager of the Saanich Fruit-growers' Association, forecast this

guest of her son and daughter-in-law, Mr. and Mrs. T. Robb.

Mr. and Mrs. J. Grice and their daughter Jean, of California, are the guests of Mr. and Mrs. W. C. Bond.

Mrs. T. Robb and her daughter Elinor, are spending a few days in Nanaimo visiting her parents.

morning, after receiving telegraphic reports from fruit brokers in eastern Canada.

Due to disastrous spring frosts, peach and apricot prices will this year be at a level which has drastically affected the canning pack. As a result many of the larger canning firms are in the market for strawberries, and experiments have shown that the preserved Saanich berries are ideal for this purpose.

There is every prospect that the featured canned fruit this fall will be the strawberry, in the opinion of Mr. Tanner. The ability of the Saanich Magoon variety to stand up under cooking temperatures, remain whole and retain its color, have proven factors of great interest with large canners.

The last car of fresh berries to be shipped to prairie markets will leave this afternoon.

Death Of Indian Near Nicola Investigated

Merritt, B.C., July 5.—Duncan Edward, Indian, nicknamed "Spokane," was found stabbed to death, on the Kamloops highway, three miles east of Nicola, early yesterday.

The police officials believing he was murdered, several Indians were held for investigation.

An inquest convened yesterday was adjourned until to-day.

AT THE THEATRES

HUMOR AND WIT PUNCTUATE PLAY AT COLISEUM

Closing the current week, the Coliseum Players will appear three times to-morrow at the Coliseum Theatre. Once in the afternoon and twice during the evening, at 7:30 o'clock and again about 10 o'clock. The doors will open for the evening at 6:30 o'clock. The feature picture, "Robinson Crusoe" occupying the hour before the players appear.

In "The Bobbed Hair Bandit" the Coliseum Players, under the direction of Raymond, "Toby" Leitch, give a good performance. The plot is gripping and interspersed with drama are numbers of extremely witty turns and humorous scenes. Miss Leone Weber, popular leading lady with the company, is seen at her best in this show, and her charming manner and delightful stage presence adds much to the role which she enacts. Others in the cast are Miss Ada Daniels, Miss Esther Todd, Paul Wallace, Miss Leitch, Forrest Taylor, Leon Cluff and Lorus Bagley.

Daniel Defoe's immortal and widely-read story of the famous character, Robinson Crusoe and his man Friday, is most realistically portrayed on the screen. It is a picture particularly enjoyable to children.

BEAUTIFUL PARIS GOWNS DISPLAYED BY CLAIRE WINDSOR

Fourteen ravishing gowns, straight from Paris by express or inspiration, and several wraps and negligees are to be seen in Tiffany-Stahl's "Domestic Meddlers," the feature attraction at the Playhouse Theatre to-day.

Claire Windsor, the star, wears four gorgeous toilettes, and in addition are the unusually beautiful boudoir accessories which the scenes in her home display.

VERSATILITY OF WALTER HUSTON IS COMPLIMENTED

Walter Huston, famous stage star, is seen in his latest moving picture production, "Gentlemen of the Press," a Paramount all-talking picture, at the Capitol this week.

"Huston knows the stage and he knows vaudeville," says John Meehan, a veteran stage director and actor who has known Huston for years. Meehan directed the dialogue for "Gentlemen of the Press," the picture made from West Coast's successful Broadway stage play.

COLUMBIA FILM FEATURES SCENES IN THE ORIENT

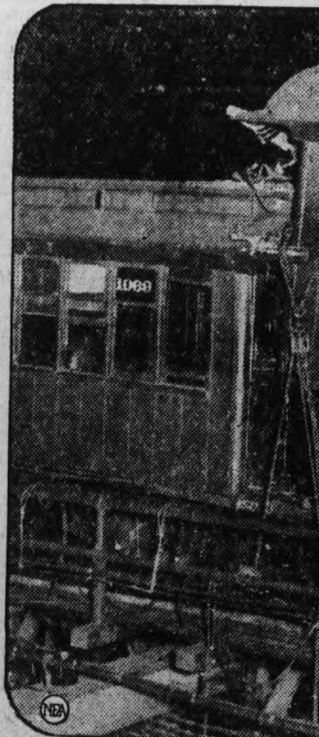

The entire cast of "The Leatherneck," William Boyd's latest starring vehicle, spent several days on location "somewhere on the Mojave Desert." In addition to the principals, which include Robert Armstrong, Alan Hale and Fred Kohler, a troupe of fifty Chinese and more than a score of technicians were employed. "The Leatherneck" is on view at the Columbia Theatre this week. Diane Ellis plays opposite the star.

TALBOT MUNDY'S STORY SCREENED AT THE DOMINION

Roy D'Arcy, the handsome villain of the screen, is due to give his admirers, and they are legion since his memorable work in "The Merry Widow," a bit of a surprise when they see and hear him interpret the character of "Ghunga Rewa," in the Fox Movietone all-talking production, "The Black Watch."

As servant and chief aide-de-camp to the exotic "Yasnaul," played by Myrna Loy, D'Arcy not alone contributes one of the most resonant speaking voices yet to come from the screen, but he sings a native song, thus revealing another side of his versatility. "The Black Watch," now at the Dominion Theatre, is based on Talbot Mundy's story, "King of the Khyber Rifles."

"L". TRAINS IN HIGH-UP CRASH

At the highest point on New York City's network of elevated lines—ninety feet above the street—two passenger trains collided. Here you see the wreckage after one wooden train had telescoped the other, killing a guard and injuring thirty-four passengers. None of the cars toppled from the high structure, but the debris caught fire after the crash, causing a panic among the passengers.

Where To Go To-night

THE SCREEN
Capitol—"Gentlemen of the Press."
Columbia—"The Leatherneck."
Coliseum—Fay Compton in "Robinson Crusoe."
Dominion—Victor McLaglen in "The Black Watch."
Playhouse—Marion Nixon in "Jazz Mad."

THE STAGE
Coliseum—The Coliseum Players in "The Bobbed Hair Bandit."
Crystal Garden—Swimming and Dancing.

Ganges

The Dominion Government surveyor paid a visit to Fulford this week, arriving by Seaplane No. 108. He will visit the forestry lookout on the summit of Mount Bruce.

The C.G.I.T. will hold their annual district camp at Ganges Harbor, Salt Spring Island, from July 1 to August 10. The camp is known as "The Camp of Delight." Miss Grace Grover of Vancouver is camp director, and the staff includes a camp mother, business manager, sports manager, experienced group leaders and a competent cook.

The site of the camp is ideal. E. Lumley, V. Douglas, H. Turner, D. Lumley and J. Garner left on Wednesday last for the Skeena River.

A well attended dance was held at Mahon Hall, Ganges, on Monday, July 1, by the Agricultural Association. The proceeds will be used for improvements of the grounds. Hag's orchestra was in attendance, and supper arrangements were in the hands of C. Baskerville. A large party came over by launch from Maple Bay. Dancing continued until 2 a.m.

Mrs. Cameron Layard and small son, who have been guests of Mrs. A. K. Oxenham at Forby House, Ganges, have returned to Deep Cove.

Miss Tillie Akerman has returned to her home at Burgoyne Valley after spending a week with Mr. and Mrs. Ernest Brenton at Bellingham.

Mrs. J. Shaw of Fulford Harbor spent a few days visiting Victoria this week.

Mrs. J. Sparrow and family have left Fulford Harbor, where they have resided for a number of years, and will make their home in Sidney, Saanich Peninsula.

At the recent examination of the Associated Board of Music, London, England, held at Forby House School, Ganges, the following were successful candidates: Primary division, pianoforte, Helen Moorhouse and Constance Oxenham; elementary division, pianoforte, Sheila Halley; primary division, violin, Bride Wilson. The violin candidates were pupils of Mrs. J. W. Flinton, Ganges.

Miss Thelma Vye of Victoria is the guest of her sister, Miss Amy Vye at Ganges.

Miss Inez Kerr left on Tuesday for Vancouver, where she will spend a few days before going to her home in Victoria for the summer months.

Miss Irene Velleio, head mistress of Ganges Public School, has left to spend the summer vacation with her parents at New Westminster.

Miss Olson of Mission, B.C., on Monday joined the staff of the Lady Minto Hospital, Ganges.

Miss Mollie Akerman is spending the summer months with her parents, Mr. and Mrs. G. E. Akerman at Burgoyne Valley.

J. Harrison of Vancouver is spending a vacation with friends on Salt Spring Island.

Mrs. James Akerman of Beaver Point, South Salt Spring, who has been a patient at the Lady Minto Hospital for over two months, will return home this week.

Willard Dix of Seattle is spending a holiday on Salt Spring Island with friends.

Miss Violet Akerman of North Salt Spring has left for Qualicum, where she will spend some weeks.

Mrs. E. Parsons, Ganges, is visiting relatives in Victoria for a week or two.

Mrs. G. C. Moutat has returned to Salt Spring Island after visiting with friends and relatives in Edmonton.

Miss Winifred Larny of Vancouver has been visiting her sister, Mrs. D. Tweedhope, Ganges, for a week.

Recent guests at Harbor House, Ganges, are as follows: Mr. and Mrs. S. L. Smith, A. H. Lee and J. Ratcliff, Vancouver; W. H. May, Victoria and P. W. Bash of Calgary.

F. O'Reilly, who has been the guest for a few days of Mr. and Mrs. A. In-

The World Famous "Ounce of Prevention"

A dash of ENO in a glass of water daily.

Intestinal poisoning from absorption is the cause of many ills. It yields and succumbs to ENO'S "Fruit Salt" because ENO so surely, but ever so gently and safely, eliminates the poisonous waste matter that causes it.

Thus does the simple daily dash of ENO'S "Fruit Salt" become the "ounce of prevention" that forestalls any necessity for the more drastic measures.

To gain a new zest for life and its duties, test ENO for yourself. . . just a dash in a glass of water every morning for a few days.

But remember, there is only one ENO. Resolutely refuse substitutes; then you will know that you have the safe, dependable, non-habit-forming health beverage.

ENO'S FRUIT SALT

The words "Fruit Salt" and ENO are the registered trade marks of J. C. ENO Ltd.
Sole Representatives for North America:
Harold F. Ritchie & Co. Ltd., 10-18 McCaul St., Toronto

gils. Ganges, has returned to his home in Victoria.

Mrs. W. N. Norton and daughter Marion of Ganges, have returned after spending several months visiting relatives in Southern California.

Miss Florence Eagle, who has been for several months a guest at Harbor House, Ganges, has left for Victoria, where she will spend the summer with her mother, Mrs. E. A. Eagle.

A. G. Crofton, who has for several weeks been a patient at the Lady Minto Hospital, Ganges, left there on Monday and is the guest of his brother, and sister-in-law, Mr. and Mrs. Ernest Crofton at Booths Canal.

Mrs. R. O. King of Ganges is spending several weeks at Courtenay, the guest of her father, Captain Beadnell. Master Douglas Harris is spending a vacation at Cowichan with his relatives, Mr. and Mrs. H. Norie.

Charles Locke-Paddon of San Francisco, has left the island after visiting Captain and Mrs. V. C. Best at "The Alders," Ganges, for a few days.
